RECORD SHORTHORN ENTRIES AT STOCK SHOW

Spectators at the 1951 Southwest Fat Stock Show, being held January 20 through February 4, at Fort Worth, Texas, will see the largest number of Shorthorn entries ever witnessed at this event since the \$20,000 total premiums being offered in the Shorthorn division.

Two new classes have been inaugurated at this year's show in the form of pens of three and pens of five bulls, with \$2,000.00 as their part of the total premiums. This new classification will undoubtedly make both consignments and purchases more uniform in quality, and should go a long way toward encouraging a greater number of entries from the smaller operation units.

In conjunction with the Shorthorn sale there will be a show of the sale cattle Tuesday afternoon, January 30, while the actual sale will be held Thursday morning, February 1. The three and five-bull pens will be sold Thursday afternoon, and feature over 15 Shorthorn breeding bulls, quality seed stock ready for use.

MEDICAL MEN DISCUSS PAINS

Pain is usually associated with inflammation, but there are also pains which do not go along with the redness, the heat and the swelling that make up inflammation. These two different types, account for the different names you find in disease, such as neuritis and neuralgia.

Neuritis is the name for an inflammation of the nerves and neuralgia is the name for pain in the nerves. One of the most common examples of neuralgia, perhaps, is that very distressing facial pain known as the tic douloureux in which the nerve spasmodically contracts in pain but shows no other change in its structure or function.

With neuritis, on the other hand, there are changes present which interfere with the structure and function of the nerve.

Since pain may be considered a short circuit in the nerve pathways, the pains of the "algia" diseases may, perhaps, come under the heading of those short circuits where you still can see the "appliance" whereas those pains of the "neuritis" are the kind of short circuits that put the particular part on the blink.

Neuralgia may be considered as one of the algias that doesn't develop into anitis; you may ache with homeitis, means, since that's what homeitis means, but you aren't likely to develop an inflammation with it.

Appendicitis, the inflammation of that small tube-like thing that hangs off the large intestine on the lower right side, may lead to peritonitis, an inflammation of that fine-like thing that lines the whole abdomen. Peritonitis may come about from the rupture of the appendix, spreading the diseased material through the abdominal cavity, but if the appendix gets too swollen without breaking open, sometimes the material from it may seep into the abdominal cavity and cause peritonitis without an actual rupture.

Colitis is the inflammation of the large intestine, and gastritis is the inflammation of the stomach. Pain in the colon, the large intestine, is not called colitis but is called colic, and is not confined to infants. Pain in the stomach, without inflammation, could probably be called gastralgia, but even in medical lore is called stomach ache.

Colic, ulcer pain and joint disease pains usually hurt more at night, awakening the sleeper. Labor pains, too, seem to start at night usually and serve as an example that pain heralds the changes taking place in your body, though in this special case it is not an unexpected change.

An interesting comparison has been made between labor pains and the pain associated with the passing of a kidney stone with women who have suffered both stating that the kidney

CROCKETT COURIER: JANUARY 18, 1951

Richardson, publisher of the Elkhart Press; Leroy M. Anderson, publisher of the Elkhart Press; Assistant Publisher Arthur Lefevre, Jr., Houston; and Outgoing President Jack Estlin, Dallas Morning News.

stone pain, which may share, is more intense and more severe than pain of childbirth.

Other pains of the body seem to put in more of a daytime appearance. One of the surest ways to start the day off wrong is to pop out of bed in the morning and discover you have sinus pain due to congestion built up in the sinuses, those caverns tucked around your nose, during the night. During the day's activities such pains as aching aches, sciatica, eye strain and stomach ache have a way of coming on, some preferring special seasons such as the spring and fall appearance of leg pain, and the change of weather aches, the activity that precedes pain, and any special with pain are all important in your report to your doctor.

CONGRESSMEN SPLIT ON DRAFTING 18-YEAR-OLDS

Washington, January 7.—President Truman made it plain Saturday that he is in favor of drafting 18-year-olds for military service, but the House of Representatives is all-out behind the administration's plan to start the draft in 1954.

The president disclosed that Defense Secretary Marshall will formally place the Defense Department's recommendation before a Senate committee on Wednesday on draft revision and occurrence of floods.

Japan has close to 2,000,000 acres of forests embracing some 350,000 separate forest areas specifically designated for prevention of denudation of soil and occurrence of floods.

HERE'S THE NEW '51 DODGE

New Inside...New Outside with a Completely New Kind of Ride

NEW in more ways than cars costing up to \$1,000 more

AT A SECRET PREVIEW THESE FAMOUS AMERICANS SAID:

YED WILLIAMS: "When I first saw this new 1951 Dodge, I was blown away. It's a big, smooth, powerful car with a new kind of ride. It's the most beautiful car I've ever seen." — Yed Williams, baseball star.

BITTY HUTTON: "It's so big, so roomy, with greater visibility for every passenger. It's the most beautiful car I've ever seen. It's the most beautiful car I've ever seen." — Bitty Hutton, actress.

DALE CARNOON: "I think I know what influence people, and this new car will be. It's the most beautiful car I've ever seen. It's the most beautiful car I've ever seen." — Dale Carnoon, actor.

ELKHART FAMILY HAS FIFTIETH ANNIVERSARY

Elkhart, January 7.—With relatives from a wide area and a few friends present, Mr. and Mrs. J. F. Durnell celebrated their fiftieth anniversary last week at their country home near here.

Trustmaster was V. L. Durnell of Houston, the couple's eldest son. His tribute to his parents was followed by toast from two other sons, C. W. Crockett, but because a number of group pictures were made, and he wanted to be in each group, but was only permitted to be in one group.

The reason that the Crockett editor has such a dejected look is not that he was from Crockett, for he was happy that he was coming back to Crockett; but because a number of group pictures were made, and he wanted to be in each group, but was only permitted to be in one group.

Truman's position was outlined by Senator Johnson, Democrat, Texas, head of the armed services group and senate democratic whip, who called at the White House Saturday with other congressional leaders.

General Marshall will present the administration's man power proposals and that these will be the administrative duty, but the proposal split congress into militant camps.

The president disclosed that Defense Secretary Marshall will formally place the Defense Department's recommendation before a Senate committee on Wednesday on draft revision and occurrence of floods.

Japan has close to 2,000,000 acres of forests embracing some 350,000 separate forest areas specifically designated for prevention of denudation of soil and occurrence of floods.

For six generations, since before 1850 when John William Durnell of London settled near where this town

now in descendants have lived and owned farms in this part of Texas. Mr. Durnell, the grandfather of J. F. Durnell, the first civil engineer in the Palestine area. He once owned land on which the courthouse and jail at Palestine now stand. He installed the first machinery in the railroad shops in Palestine. The little Antrim cemetery, where several generations of the family are buried, once was a part of the Durnell estate.

For eight generations Mrs. Durnell's ancestors, the McCutcheons, pioneers in Texas. Her grandfather, M. M. McCutcheon, was county judge of Crockett county. Her father, Calvin, was prominent in the development of Crockett county, where he was a rancher and commissioner after the county was organized.

This and other facts about the family were recalled at the gala celebration at the home, where the Durnells have lived most of their 50 years of married life.

Both Mr. and Mrs. Durnell are descendants of pioneer Texas families. They were married 50 years ago at Robert Lee. Five of their eight children are living. They are: Virgil L. Durnell of 927 Cortlandt, Houston; Calvin W. of Elkhart, Johnny P. of Baytown, Edna Mae of Davenport, Iowa, and Deward O. Durnell of Bellefontaine, Ohio. There are 13 grandchildren and three great-grandchildren.

MAGNOLIA GARDEN CLUB HEARS SPEAKER

The Magnolia Garden Club met Thursday afternoon, January 11, at the Denny Crockett Memorial building, and after Mrs. T. E. Dawson, president, greeted the group she introduced Mr. Raymond Morrison of Fort Worth, landscape architect and an authority in this field.

Mr. Morrison spoke on "Designing Home Grounds for Efficiency and Beauty." He brought out many points to remember, among them being that with proper landscaping around the grounds the home and grounds could be made into a pleasing "living picture" that would change with the different seasons. He emphasized the importance of proper grading and the proper building of soil to grow plants around the home.

Mr. Morrison said that while garden played an important part in every generation, the "changing times" also brought about problems of labor and expense—and that this labor shortage and expense problem was especially true today.

Mr. Morrison illustrated his lecture with slides of beautiful and well-planned gardens in the United States and abroad.

A two-hour lecture was greatly enjoyed by a group of garden lovers, as was well attested by an estimated crowd of two hundred who were there to hear Mr. Morrison. Many out-of-town visitors were present.

Mrs. Denny Collins Jr. and Mrs. Harry McLean were hostesses for the afternoon and served cakes from an artistically planned table with a center-bowl arrangement of the lovely first harbingers of spring in flowers—the yellow daffodils.

Mrs. Robert von Dornhoff and Mrs. Frank Powers were co-workers in planning the lovely table decorations for the afternoon.

CROCKETT CADMAN CLUB MEETING

The Cadman Club held its regular meeting January 10, with Mrs. G. E. Lake presiding. After the New Year's greeting by the president, Mrs. Leonard Arnold, the secretary, read the minutes of the December 5 meeting. The treasurer's report was given by Mrs. Pete Capriellan.

Mrs. Mabel Hall, a delegate to the Fort Worth convention this year, gave an interesting report of the convention to the club members. Mrs. Mabel Leonard Arnold attended the convention.

After the regular business meeting, Mrs. Earl Porter Adams took the chair for the program—the subject being "Ragtime to Jazz," with a group of piano numbers rendered by talented members of the club in playing each type of music discussed on the evening's program.

Hostesses for the club's social hour were Mesdames Albertine von Dornhoff, A. M. Dezun, Jim Young and Misses Mary Aldrich and Otis McConnell.

For her wedding, Mrs. Sherman wore a green suit with tan accessories. After her graduation in January the bride will take a position as assistant land director in the Texas City high school.

On the campus she is a member of the symphony orchestra, Anne Gibbs Sigma Alpha Iota, Kappa Delta Pi and "Who's Who in American Colleges and Universities."

Sherman is a senior government major at Texas University. He is a former Sam Houston basketball player—Houstonian, Huntsville.

JUST A WORD WITH OUR SUBSCRIBERS

We have thirteen renewals and subscriptions this week against fourteen last week. The difference may be laid to the certainty of the weather—to the certainty of there being some kind of weather. We can always figure on there being weather of some kind—it may be that you haven't seen rain in so long that you have forgotten what it looks like, but there is always more or less weather of some kind.

The following will please accept our thanks for their renewals and subscriptions:

Mrs. J. D. Woodson, Crockett. Joe Smith, Pasadena. H. E. Goodwin, Clute. Mrs. M. A. Ross, Palestine. E. E. McLenore, Madisonville. Mrs. Joe Richardson, Crockett. Mrs. W. E. Moneyham, Houston. Mrs. D. J. Cater, San Antonio. W. E. Maxey, Richmond. John L. Dunn, Crockett. B. J. Johnson, Crockett. Mrs. Lester R. Patten, Corpus Christi. J. A. Beathard, Alto.

CROCKETT COURIER: JANUARY 18, 1951

COMMANDER GIVES APPOINTMENTS TO GOVERN BUILDING

A board of trustees, to have charge of the American Legion's new building for a year, has been announced by Brewer Bennett, post commander. The five members of the board were jointly selected by Bennett and Raymond Craig, who resigned recently as post commander to become county commissioner, and all have agreed to serve.

Included on the five-member board are David (Whitey) Cox of Porter Springs, John N. Morgan of Kennard, Cecil Roe of Lovelady, Carroll Herold of Grapeland and Frank Granberry of Crockett.

Healing Restored to Christianity

Through the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the lost element of spiritual healing is restored for all mankind. The study of the Bible in the new, spiritual light of this book has lifted countless thousands from sickness to health, and from failure to success. Such experience is equally available for all.

In eighteen chapters this great book gives the complete explanation of Christian Science.

Price, \$3.50. Sent postpaid, on receipt of remittance to:

mistake in putting dry ice in their fish ponds, as the fish want more water and wetter water. He thinks this newly organized company will do well with this new industry, as he has never seen any water too wet, but has frequently seen it evaporate, under proper stimulation.

JOIN THE MARCH OF DIMES

The March of Dimes drive is in full swing, as an intensive campaign is on from January 15 to the 31st.

We in our community consider ourselves indeed fortunate that there have been considerably few cases reported in Houston county; however, we never know when or how it will strike, and the toll of lives, or of crippled individuals each year, is greater than we ever stop to realize.

This we do know—that it is costly in every way—and in the intensive remaining weeks of this drive we should feel it as one of our responsibilities to "lend a hand" in helping to fight polio, and join the March of Dimes.

FUTURE FARMERS AND HOMEMAKERS

February 3 is Future Farmers of America day at the 1951 Houston Fair Stock show. Twelve members of the Houston F. F. A. chapter are making plans to attend the stock show and world championship rodeo on that date according to G. C. Shanks.

From throughout Texas, thousands of F. F. A. and F. H. A. members will attend the nineteenth annual stock show. Special concessions in prices have been made to enable as many farm youth as possible to see the rodeo Saturday afternoon.

Rodeo headlines include William (Hopalong Cassidy) Boyd and Eddy Arnold, the Tennessee playboy.

ARBOR DAY TO BE OBSERVED

At a recent meeting of the Magnolia Garden Club the president, Mrs. T. E. Dawson, mentioned that Arbor day would be observed by the club on Friday, January 19, by planting a Magnolia tree with appropriate ceremonies. She asked for volunteers to carry out this observance, and other clubs to respond to this request and who will plant a tree. The County Line Garden Club, the Redland Club and the Crockett Culture Club.

COMPANY TO MAKE WET WATER WETTER

A \$100,000,000 company has been organized to make water wetter. It is said that water is not wet enough, causing it to evaporate too quickly and resulting in the failure to last through all the drought and pouring water holes to dry up too soon. Friend Millard says that some of the water holes out his way are so dry that the fish have become dehydrated and are almost ready to vote wet. Our friend says that people make a

**CLUB HEARS [SPEAKER]
[uncertain]**

The Magnotin Garden [Club] [uncertain] met Thursday afternoon, January 11, at the Davy Crockett Memorial building, and after Mrs. T. E. Dawson, president greeted the group she introduced Mr Raymond Morrison of Fort Worth, landscape architect and ain authority

Mr. [Morrivon] [uncertain] spoke on Designing Home Grounds for Efficiency and Beauty." He brought out" many fine points to remember, among them be-

ing that with proper landscaping around [the'] [uncertain] grounds the home" and grounds could be made into a pleasing living picture" that would change Wwith the different seasons. He emphasized the" importance of proper grading and the proper building of soil to grow plants around the hankie. Oak sawdust was especially recon mended [forplints] [uncertain] as a-mulch swell ax" cotton" seed hulls,Jeaves, [RPRSS,] [uncertain] eye. Mr. Morrison was of the opinion that the pecan leaves held no.particular value as a mulch for plants.
