IN SERIOUS WARFARE.

Many people do not realize the se-

[Priousness] [uncertain] of our present war situa-

ton, The country is in much worse shape than it was at the beginning of World War No. 1 or World War No. 2. We are not only beginning to have to pay for the present war, but we are having to pay for the follies of the other two [wars—not] [uncertain] only for the cheapening of the gold standard, bt for the large sums of money thrown away by unscrupulous and self-seeking government officials, similar to the [furcoat] [uncertain] scandal. Many officials have much to repent of. Depreciation of the currency started the climbing of [prices—the] [uncertain] beginning of the inflation which we now have and which many call prosperity. As long as this inflation is kept up with our tax money, the dollar will become cheaper and cheaper and prices higher
