

CROCKETT COURIER: MARCH 22, 1951

Spring!

**SPRING, SPRING
SPRING IS BUSTIN'
OUT ALL OVER**

**DAVY CROCKETT
TRINITY COUNTY
SOIL CONSERVATION**

It's just about time for the paper to go to press this week—and it's SPRING!

The CALENDAR says so. It says March 21, and under March 21 on the calendar it says SPRING BEGINS.

Us folks in east Texas can go naturally argue with others a little about that—for we think we've had an EARLY spring—except that about four times already that EARLY SPRING was sort of "chased into hiding" by a cold winter. Remember the one we had Sunday? Here it is! But today it looks as if SPRING IS BUSTIN' OUT ALL OVER, again. All nature, even the birds, again. All have assumed the air of spring again.

From the looks around the square, the garden seed and flowering shrubs are having that annual appeal to would be garden lovers. And as the weather is on the subject of gardening, we expect that a lot of Houston county citizens will "tuck" in an occasional pepper or tomato plant with the space allotted for flowers this year... if they don't have a garden.

Some flower beds not too many years ago were frequently edged with parsley; and there were quite a few spaces that were spotted with growing vegetables in that VICTORY garden plan we had.

This year the people call such vegetable plots "LIBERTY GARDENS." It's a good idea, with conditions as they are, today: to have one if you can.

While dicing in a garden you'll no doubt find plenty of earth worms, which remind us that it's getting good fishing weather, and those earth worms do make good fishin' bait.

The spring flowers are beautiful now. The red-bell and the dogwood trees are getting beautiful—which reminds us to say that the drives over by Ratcliff lake over by Livingston is one of the prettiest to be found in this section this time of the year, and it's getting prettier day by day with the dogwood beginning to bloom in this section. And the long shaggy like Granddaddy-grey-beard trees will be pretty too. We are told that many of these trees can be seen around the Ratcliff lake area, and that they are plentiful.

And the air of spring is certainly in the stores with so many spring-time clothes and hats and accessories. Nails and hammers and building supplies in other stores are getting attention, too.

Of course, spring arrives just a few days before Easter—and, come Sunday, being it's Spring and EASTER Sunday, no doubt the churches will look like "Spring is bustin' out all over," with flowers to decorate the church, and so many people attending services. But truly, we know that the church of your choice will look lovely this Easter as people gather to worship, and to humbly pray—for guidance, for understanding, for Love and Peace—in our worried world of today.

But right now, SPRING IS HERE—and we hope to see YOU in the Easter Parade-Easter Sunday.

Was Principal Speaker.

Mrs. Teresa Archibald left Monday, March 12, for Corsicana to attend a meeting of the Alpha Rho chapter of the Delta Kappa Gamma National sorority, where she was the principal speaker at a banquet given by her while in Corsicana by Miss Alma Armstrong and other friends. She returned home on March 19.

Boyer House, Fred Gibson, Mayfield and many other well-known writers will be in the Texas Authors' Day program to be held in San Antonio May 5, at the Menger hotel, bringing together Texas people who are

SET A SMARTLY STYLED BUFFET SUPPER

Plan a handsome and smartly styled buffet supper for easy correct whether it's a small supper for the casual club or a large anniversary or birthday celebration.

Macaroni and Mushroom Casserole
8-oz. pkg. elbow macaroni
1/2 cup thinly sliced onion
3-oz. can chopped mushrooms
Bring 3 quarts water to rapid

boil in large saucepan, add 1 tablespoon salt. Gradually add macaroni, so that water continues to boil. Boil, uncovered, until tender, about 9 to 12 minutes. Drain in colander. Arrange half of cooked macaroni in greased casserole. Top with layer of 1/2 the onions and drained mushrooms. Repeat layers. Blend milk with mustard and cayenne; pour over casserole. Cover; bake in moderate oven (350 F.) 35 minutes. Uncover and bake 10 minutes longer to brown top. Serves 4 to 6.

LAWLESSNESS BECOMING UNBEARABLE

Attorney General Price Daniel has called a meeting of the state's 316 prosecuting attorneys to consider means of waging a more vigorous fight against organized crime in Texas.

"In addition to stamping out the organized gambling which now exists, Texas should let the world know that it will not tolerate entry into this state of the gamblers and racketeers who are now being run out of other states by exposure of their lawless activities," said Attorney General Price Daniel.

"I know of no group which can sound the warning and back it up better than the county and district attorneys, acting in cooperation with their local law enforcement officers," he continued.

The meeting, to be held in Austin March 30-31, will be patterned after a national conference called last year by the attorney general of the United States at the request of the state attorneys general.

Miss Jacqueline English, daughter of Mr. and Mrs. H. P. English of Kennard, has joined the Women's Air Force. She resigned as teacher in the League City schools to enter the service.

Miss English was one of a group of six girls inducted at Houston last week and sent to Lackland Air Force Base for training. She probably will specialize in photography, in which she took special training at San Antonio State Teachers' College in Huntsville.

A picture of the group inducted at Houston appeared in the Houston Post last week.

HELPS OUT EDITOR AND HIS FRIEND

Mr. H. G. Bradley, Gladewater hotelman formerly residing at Pennington Hotel, Greenville, who peruses the Courier daily, sends us his sincere thanks for the editorial "The Club" which appeared in the Courier last week.

"I hope that you and your friend Milford have a good time on this trip," he wrote. "I am sure that as I worked hard for a while, I am sure that you will have a good time."

While Friend Milford was here Saturday, we thought of going to Trinity county, but figured that the \$2.00 would not go far enough there. So, instead, we lunched in a Crockett cafe and let the cafe man have the \$3.00. Friend Milford said he preferred mountain dew any day to the coffee or editor-dinner-milk-milk-milk.

Mexican tequila since his last trip to Monterrey. Both of us were very much pleased over the expenditure, for which we thank our Gladewater friend.

HOUSE BILL 226 IS RE-REFERRED

House Bill 226, sometimes referred to as the Graham bill, was passed out of the state affairs committee.

Just read with keen relief, in the paper, your interesting article about the picture of you, O. J. Wilkerson, taken during the recent Mid-Winter meeting of the Texas Press Association at Austin. Truly, it's always fair weather when good fellows get together and a joy to be with clear friends. The subject temporarily under discussion at any particular meeting may be prompted by some passing incident, but the presence of congenial comrades is ever a pleasure.

With kindest personal regards and best wishes for your health and happiness,

Sincerely,
Arthur Lefevre Jr.

Dear Arthur: Thank you for your sentiments.

W. W. Aiken.

On most issues Democrats and Republicans can, and should, disagree—and disagree heartily. For example, there should always be two points of view concerning the purposes for

Weldon Civic Club.

The Weldon Civic Club planned a picnic and fishing trip for March 18, but due to cold weather it was called off.

Corn planting time is here, or even past in some sections of Texas, and many farmers have their sights set on producing yields of 100 bushels or more per acre. Such yields are becoming quite common in the corn producing areas of the state, but there is more involved than what meets the eye, says M. K. Thornton, extension agricultural chemist of Texas A. & M. College.

He says many different plant food elements are required by the growing corn plant before it can be expected to produce a hundred or more bushels per acre. An acre of corn producing at the rate of 100 bushels, represents the following: 4,000 pounds of stover; 1,400 pounds of cobs; 5,600 pounds of shelled corn and 5,200 pounds of root and stable. This makes a total of 16,200 pounds of air-dry matter and excluding all water, amounts to about 14,200 pounds of moisture-free dry matter. That kind of production, points out Thornton, means the soil must be fertile and much of the plant food must through necessity be added in the form of fertilizers.

To Give Away.
Some nice cats and kittens.
Mrs. J. H. Crow.

When a friend asked the Courier editor why he didn't wash his office window, the editor replied that he didn't want the people to see what he was doing, but our friend suggested that maybe we didn't want people to see what we were not doing.

When a San Antonio mother called the police department and asked the department to find her son, the department replied that he was drunk and they had him in jail; the mother replied that her son was not that kind of a man and could not possibly be in jail, proving a mother's love for her wayward son.
