Why Vote More Bonds Now?

A new bond issue of \$100,000.00 is proposed to be issued by the City of Crockett, to add to its already heavy bonded indebtedness.

Last year, water and sewer extension bonds were voted, and all of the revenue, after paying expenses of operation, was pledged to pay that debt.

Bonded Indebtedness of the City Now \$317,000.00

ALREADY WE ARE PAYING THE STATUTORY LIMIT OF TAXATION.

MORE BONDS MEAN MORE TAXES . . . HIGHER INTEREST.

MONEY BUYS LESS NOW THAN EVER BEFORE.

EVERY TAX PAYING CITIZEN OF CROCKETT SHOULD VOTE

AGAINST ISSUING MORE BONDS

BECAUSE

MORE BONDS CAN'T BE ISSUED WITHOUT INCREASING THE

PRESENT TAX RATE

WHERE IS THE FINANCIAL STATEMENT OF THE CITY?

(Statute requires publication annually.)

What Does the City Owe Now?

(Is it being operated within its budget, how much of the proposed bond money will be used to pay back what it already owes for?)

HOW MUCH REVENUE DOES IT HAVE?

WHAT DOES IT COST TO OPERATE THE CITY NOW?

WHAT WILL IT COST AFTER ISSUING MORE BONDS?

These are vital questions concerning every tax-paying citizen residing in the City limits of Crockett. More taxes makes more burden on home-owners. When you vote FOR the issuance of bonds, you vote FOR putting more taxes on your home. We believe in progress, but we believe in reasonable progress. Now is not the time to spend money, because it buys less than ever before.

Vote Against Issuing More Bonds.

You Will Be

VOTING FOR PROGRESS.

CROCKETT SCHOOL BAND INVITED TO MARCH IN PARADE

The Crockett band has accepted the invitation of W. Albert Lee, 1948 Houston Fat Stock Show and Livestock Exposition president, and the show's executive committee to attend the opening day of the Fat Stock show, February 2, and march in the grand opening parade.

Mr. Lee has invited the 45 members of the band to be his guests at the evening performance of the world championship rodeo.

This will be the opening performance of the rodeo, and all the stars will be fresh and wild, so the spectators will see a rip-roaring show. Highlights of the evening's performance will be a death-defying exhibition of skill and agility in horseback riding put on by the Mexican Charrros, an exhibition of the world's best bull riders, and a performance of the world's best ropers. The group has been selected to ride through special arrangements with the state department and the government of Mexico.

One of their most spectacular feats is that of roping horses by grabbing their tails instead of leading to their necks as do cowboys. Another feat of note is the "Rodeo" where the charrros jump from the back of their horse, onto the back of a saddling and roping, and then back to the horse to a standstill.

Other events of interest on the rodeo program include an exhibition of the world's best ropers, a performance of the world's best bull riders, and a performance of the world's best ropers.

COURIER AGAINST INCREASING BOND INDEBTEDNESS NOW

The Courier has heretofore favored bond issues, when needed and when prepared at the right time. But we believe that a bond issue now by the city would serve no good purpose. Materials are too high and money too tight for the people to buy bonds. The city would have to pay the bonds at a much smaller cost. More improvements can be acquired for the same money later, thus reducing the interest cost. The Courier editor will vote against the bond issue.

As an illustration of how little money now buys, we have but to recall the interest on the city bonds. When we issued our bonds last year, we had to pay interest on them at 4 percent. Now, when we issue bonds, we have to pay interest on them at 5 percent. This means that the city will have to pay more for the same money later, thus reducing the interest cost.

COURIER AGAINST INCREASING BOND INDEBTEDNESS NOW

The Courier has heretofore favored bond issues, when needed and when [propoaed] [uncertain] at the right time. Dut we believe that a bond fescue now by the city would serve no good purpose. [Materials] [uncertain] are Loo high and money too cheap for the people to load them-selves down with additions!) taxes. They cannot afford to pay in later years the Intereat- an the city improvements which their money will now buy. At the proper time these Proposed improvements can be acquired at much smaller cost, [More] [uncertain] improvements can be acquired for the same money later, thus reducing the Interest cost, The Courier editor will vote [againat] [uncertain] the bond lase.

Aa an illustration of how [IltWe our,] [uncertain] money now buys, we have but to [re-] [uncertain] late the presence of our friend, Mr. Milidew, in town Saturday. When we observed our friend pushing [wheelbafrow] [uncertain] along the sidewalk in front of our office, we asked him if he expected [totake] [uncertain] home his Saturday purchases that way.
