Special to the Crockett Courier, Thursday, March 3, 1910.—"Just make the dough, wet it aside to rise, and let it only take about 15 minutes to bake a batch of rolls when you are ready for them," is Mrs. C. H. Roe's comment on the Quick Yeast Rolls she has made for the Hobbin Hood Self-Rising Flour.

Mrs. C. H. Roe of Box 141, Lottsville, Texas, was chosen among a group of women in the Crockett region, to test Hobbin Hood Self-Rising Flour for International Milling Co., Brownsville, Tex., preparatory to its introduction in the market. Mrs. Roe's results were as follows:

"One of the staple breadstuffs all across the home are the fluffy rolls, and the quicker and easier made, the better it is on the women who have to do the cooking. I was happy to have the opportunity to test this new recipe, and the new Flour, Hobbin Hood Self-Rising.

"I was specially impressed by the way my rolls rose so beautifully, yet didn't use a single baking powder ingredient. I understand that Hobbin Hood Self-Rising Flour has all the baking ingredients already mixed in the mill, scientifically measured and exactly the right amounts. In addition, the Hobbin Hood Self-Rising Flour already has the salt added to its rising. This development is
