### TRUMANS PLACE.

If Harry Truman doesn't do something  
very foolish indeed, he is [practleally"  
aure] [uncertain] of his place in history.  
That is to say, tie Truman name is sure of  
its place in history. The Napeltoni Code  
lived longer than Napoleon did. It still  
lives, and ia a part of the [atream]  
[uncertain] of civilization. Napoleon  
[didnt] [uncertain] write the code. He [bly  
couldnt] [uncertain] have interpreted it ut  
the code will bear his name. And that  
would have been true, even if Napoleon  
had not been a [geniyg] [uncertain] in  
another [fird—the] [uncertain] battlefield  
It in ao with Truman. The Truman  
Doctrine [wil]] [uncertain] either take  
Truman of [breuk] [uncertain] the United  
Stotes. And if it breaks the United States,  
history will ante Trumans name  
somewhere on the [tumbatune] [uncertain]  
of his country. The [tule] [uncertain] of  
world destiny her) caught up the name of

As in the case of [Theexlore]

Franklin [Towserelt,] [uncertain] the  
contemporary estimates of the man hope

Ryosevelt II in international affairs has  
already [beeun] [uncertain] to shrink  
Misled, misinformed. Roosevelt 11 was

[iteclf. Domestic] [uncertain] tides of

of the tide than he was of the compass. Ue

Mr. Truman [(a] [uncertain] inferior to

[uncertain] men than himself. And Seals is  
more than [cconomic] [uncertain]  
discontent. It is more than lack of housing  
and lack of jobs.

Now, tt ia [entitely poanible]

history wise. He aimed at a place if history
