PUBLISHER'S NOTICE

In case of errors or omissions in legal or other advertisements, the publishers do not hold themselves liable for damages, further than the amount received by them for such advertisements. Advertisements accepted only on the basis of cash payment.
 Any statement reflecting upon the character, standing or reputation of any person, firm or corporation, published in this paper, will be held to be a libel, and the publisher will be held responsible for the same. The publisher will not be held responsible for the return of any material sent to him, unless it is accompanied by a return address.

WHAT EMPLOYEES DON'T KNOW

The following is taken from an address by one of the well-known labor leaders in the country—Walter W. Gerner, president of the American Watch Workers' Union. The points it makes should be understood by every one-labor included.
 "We in America, who have to do with corporate enterprises, have failed in our obligations to make employees understand what corporate enterprises are. When the agitator gets up in

FARMS FOR SALE

277 acres five miles north east of Crockett. About half open land, three tenant houses, plenty water. Mineral rights intact and go to purchaser. This is a good buy.
 220 acres five miles north of Crockett. 80 acres open land, two tenant houses, plenty water. All mineral rights go to buyer. This is an excellent dairy location.

Can Black-Drainage Help That Bull, Dopey Feeling?

Yes, Black-Drainage may help that dull, dopey feeling if it is the only reason you feel that way. It is because of constipation. Black-Drainage, the friendly laxative, is usually prompt, and thorough when taken as directed. It costs only a penny or less a dose. "Black-Drainage" has been a best-seller with four generations. If you are troubled with constipation, loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental listlessness, bad breath—and if these symptoms are due only to constipation—don't see what Black-Drainage may do for you. Get a package today.

Financial Indications

There are increasing signs of financial indication on the national scene. The joint committee of congress on internal revenue has just estimated that federal income may fall \$2,000,000,000 below estimates in the fiscal year 1950. There is a new move in the senate, of democratic origin, to cut \$1,000,000,000 out of the appropriation bills now before congress. The committee for economic development, a little belatedly it is true, urges reduction in government spending to avoid deficit financing or higher taxation.—Houston Chronicle.

Another "Red Herd"

Worse thing than that employed by Attorney General Tom Clark in his efforts to get on the right side of the Communist issue has seldom been seen in Washington. A move by the attorney general designed to leave the congressional drive against the left wing tendencies of the administration is almost certain in a near future. This same drive is a real for some development which proves that Soviet activities in this country are still too general for the southern wing which the government's chief law officer wants to administer.—Houston Chronicle.

GET IN THE CORNERS

Spring is drawing to a close. The hot summer days, with their special fire hazards, will soon be with us. It's time if we haven't done it already, for everyone to "clean up" their property in the interest of both safety and attractiveness. The spring clean-up campaign, in which thousands of communities participate, are a fine American tradition. Business are painted. Yards are groomed. Useless shrubs are torn down. Overgrown vacant lots—which have been the starting points of some of the country's fire—have been mowed and cleared. It's amazing what this sort of face lifting does to a town's appearance.

Work Harder

Maybe some of the leaders have realized that it is time to throw the crockets on government spending. At least they have started talking in that direction and trimming some of the budgets. The day of easy money is now in the past. Folks are going to have to work harder. Business firms are going to have to go after business. This is indicated by the fact that big concerns are turning from institutional advertising to private advertising. They are turning from magazines to other media, and especially the press. You might get along without advertising, but you can't get along better with it. If that statement isn't true a lot of brains and money is going for a wasted effort.—Houston Chronicle.

Jefferson on Federal Economy

I place economy among the first and most important virtues and public debt as the greatest of dangers. To preserve our independence, we must not let our rulers lead us with perpetual debt. We must make our choice between economy and liberty, or profusion and servitude. If we can prevent the government from wasting the labors of the people under the pretense of caring for them, they will be happy. The same prudence which in private life would forbid our paying our money for unexplained projects, forbids it in the disposition of public money.—Thomas Jefferson.

Guests Piffer Anything

Vancouver, B. C., May 23.—Delegates to the Hotel Association of Canada convention aired their complaints about certain types of guests. "Guests take everything," Harry Boyer, a delegate, summed it up. "One man ripped a telephone off the wall and took it home." Boyer of those sewer-pipe types of assistant usually seen near hotel elevators. Delegates reported their hotels misused vacuum cleaners, pictures from lobby walls, mirrors, plate glass tables, towels, blankets, waste baskets and the inevitable towels.
