CROCKETT COURIER: JUNE

A.&M. LANDSCAPER GIVES SHRUB TONIC

College Station, June [22~—If] [uncertain] your queen-leaved aruba have turned yellow about this time of Year, give them a [little tonic—tonic] [uncertain] in the form of mw quarter to a half a" pound of copperas and one pound of sulphur for every large shrub or small tree.

Thats the advice of Sadie [Hatfield,] [uncertain] extension landscape [ars] [uncertain] especial- [ist] [uncertain] of Texan A. M. College. This copperas-sulphur tonic will turn the leaves green again, tike they abound be. Fertilizers [mized] [uncertain] with the soil at the same time also" help prevent further yellowing of leaves.

Heres something else that will help keep the plant going [thla] [uncertain] summer. Spread a vegetable mulct around the [shrube] [uncertain] to keep the roots from drying out when the summer temperatures soar. Mulch holds moisture in the soil, making it [avallable] [uncertain] to plant roots, Miss Hatfield says. The mulch, spread over several square feet several inches thick, will gradually work itself Into the ground.

Compost, grace [cullings,] [uncertain] straw, or any kind of decaying plant material are [al] [uncertain] good, [Mies] [uncertain] Hatfied says. Grass cut furnish nitrogen and other plan foods. They also make the [soll] [uncertain] acid, making [tron] [uncertain] more [avallable] [uncertain] for plant use la helps the leaves stay green, she concludes.
