PUBLISHER'S NOTICE

In case of errors or omissions in legal or other advertisements, the publishers do not hold themselves liable for damages, further than the amount received by them for such advertisement. Advertising is accepted only on this basis.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Courier will be gladly corrected if the error is not due to the negligence of the publisher. It is the policy of the publisher to bring to the attention of the management.

GOVERNOR SHIVERS.

Allan Shivers, who became governor of Texas upon the death of Beauford J.ester, is one of the youngest men to become chief executive of this state, but he is a seasoned political figure nevertheless.

Mr. Shivers, who will take the oath of office as governor on Saturday, has been in the political limelight for 14 years. He was elected to the state senate in 1925, and at 27 was the youngest state senator in Texas history. He also was one of the comparatively few men elected to that office without first serving in the lower house of the legislature.

His record as a state senator was outstanding. So was his military record during the second World War, from which he emerged a major, wearing five campaign ribbons and the Bronze Star. He was elected lieutenant governor in 1948 and re-elected in 1950.

In private life, Governor Shivers is a successful newspaper publisher. He is co-owner of the Mission Times and the Tyler County Booster at Woodville. He also raises cattle at the old family home near Woodville.

There is fortune that a man holding sound political principles and with broad experience in government was chosen by fate to step into the governor's office upon the death of Beauford Jester. Shivers, like Jester, is a strong leader. Like Jester, too, he is neither bedside nor ultra-liberal, but trades a "middle path."

He is more of an innovator than Mr. Jester was, having sponsored proposals for a full-time legislature.

Women now find 2-way help for old problem

What to do for woman's old problem, functional monthly pain? Many a girl and woman had found the answer in Quaker 3-way help. You see, Quaker may make things easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional periodic pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. Quaker is scientifically prepared and scientifically tested. If you suffer "at those certain times," get Quaker today.

CROCKETT COURIER: JULY 21, 1949

FOUR PEOPLE ARE INJURED IN HIGHWAY COLLISION

Four persons were injured early Thursday morning in a two-car collision about six miles north of Trinity on highway 45. The injured are Mrs. Cary Mize and daughter, Jennie, the daughter of Crockett; John Alexander Mize, 2508 Tidwell, Houston, and his 11-year-old son, Eugene. According to T. M. Leake, highway patrolman investigating the accident, the collision occurred when Mrs. Mize attempted to get back on the highway after her car's right wheel had slipped off the road. The Mize car slid on the wet pavement into the path of the oncoming car with trailer, and both cars were completely demolished.

Mrs. Mize sustained a broken collar bone and leg, and possibly other injuries, and Jennie Dell was only slightly injured, it was thought. Mr. Mize sustained back and hip injuries, and his son had some teeth knocked out. Mrs. Mize and daughter were taken to a local hospital.

PROSPECTS ARE DOUBT.

Feed crops to supply forage and carbohydrates for livestock have prospects twice the average in the survey. One county served by the East Texas Chamber of Commerce, according to a recent survey of the regional chamber, Hubert M. Harrison, general manager, announced that the average corn yield per acre, east Texas prospects to produce an average of 115 bushels per acre, according to the survey. Corn acreage is up some 100,000 over 1948, with 80% of the 1949 acreage planted to hybrid varieties. The survey revealed other forage crops, as Guernsey milo, maize, beans and soybeans, were reported to have stable acreages with good prospects. Five yields. Several counties listed kudzu as an excellent forage crop and soil builder now being successfully grown.

WAR LOSSES.

Misery follows in the wake of war's tragedy. Today, the story of the misery is written in the indelible lines of hunger on the faces of Europe's children. Parents, ill-equipped and derided themselves, must bear the almost impossible burden of raising their children in a world of war.

Make no mistake—all the victims of this horrible, devastating war did not die on the battlefield. The war is still claiming victims, many of them children who were unborn when the fighting was in progress.

GET THE FLIES OUT FOR SANITATION

Sanitation is the number one item in a successful fly control program. Insecticidal treatment is of little or no value unless a thorough job of cleaning up all fly breeding places is done.

It is a known fact that flies carry the germs of many diseases and with the increasing amount of pollution in the state it is more important than ever to get rid of the flies and other insects that may be carriers of the disease.

If DDT is not giving good results, try a 2 per cent chlordane household spray. It should get the flies as well as other insects that bother some in and around the house.

Premises should be kept clean at all times. Keep garbage in covered containers and keep the lids on these containers. Clean up and destroy breeding places around the farmstead and don't expect the insecticides to do the entire job. They'll help, but there is nothing that can be substituted for cleanliness, but if you mix the two together in liberal proportions and use them, you can keep flies under control.

Take our word for it...

You can take Humble's word for it:

new Esso Extra Motor Oil gives your car three-way extra protection—it's the finest motor oil Humble has ever supplied

its customers, the companion motor oil to Esso Extra gasoline. And it costs no more than other premium motor oils...three-way extra protection is something extra for your money. Let the Humble station in your neighborhood drain dirty, dangerous motor oil from your car and refill with new Esso Extra...

...this new motor oil gives your car's engine extra protection

HUMBLE

Esso Extra MOTOR OIL

...something Extra added!

HUMBLE OIL & REFINING COMPANY

Here's How New Esso Extra Motor Oil Protects Your Car

CLEANS!

HOT OR COLD—ALWAYS THE SAME.

OVER A MILLION MILES.

You probably use a good detergent soap in your kitchen. New Esso Extra Motor Oil contains a detergent specially designed to be added to motor oil to keep engines clean. As a good detergent soap will not injure hands and delicate fabrics, the mild detergent in Esso Extra Motor Oil is safe for use in the most lighted automobile engine mode.

New Esso Extra Motor Oil has been road tested in cars for years for over a million miles of driving in every test, whether the car was driven slow in city traffic or pushed on the highway, new Esso Extra Motor Oil proved to the engineers who made the test that it gives extra motor oil performance.

In cold weather, you want a motor oil that is easy to pour, so that it will coat every part of the engine. In hot weather, you want an oil that stays full bodied and tough. Scientists rate the ability of an oil to stay the same, hot or cold, by its viscosity index, and, generally, the higher the viscosity index, the better the oil. New Esso Extra Motor Oil has the highest viscosity index of any motor oil in Texas—or out.

Men of Crockett Assist in Funeral of Texas Governor

Capacity for choosing capable men of trust. His further contributions to the state were his legislation for public welfare: his prison reforms, his improvements for the people in penitentiary institutions, his juvenile delinquency bills and other humanitarian legislation will make his name go down in history as one of the great governors of all times.

Bishop Smith said that Gov. Jester wished it to be that way. In a telephone conversation following his recent committee of the Crockett and Houston County Chamber of Commerce, announced Herbert Callaway, president.

Printed in brown lettering, the front of the four-page sheet is entitled "If... Do These Things for you... WHO WOULD?"

Each page features the large "If you... WHO WOULD?"

Commerce wouldn't work to stimulate retail and wholesale trade in Houston County, who would? This Chamber of Commerce wouldn't do these important things for you... WHO WOULD?

And if the civic-minded people of Crockett and Houston County wouldn't support the chamber of commerce, who would?

It ends with "Doctor, lawyer, merchant, chief, and farmer all depend on the prosperity of Houston County. They drive east of Ashville twenty miles to Black Mountain and from there three miles farther to Ridge Creek. They will return through Knoxville, Nashville and Memphis, Tenn., and into Arkansas through Little Rock and Texarkana. Thus the travelers will have seven additional states."

making friends, contacting county state and federal highway officials and following through. (Another C. of C. service.)

Under work for agricultural and industrial development is listed: Making economic surveys, promoting agriculture through numerous 4-H clubs, PFA and other rural projects, studying legislation, building labor-management cooperation, aiding existing industries, and promoting new industries.

"Who Would carry on a continuous program for the benefit of every Houston County citizen?" They answer that it is done by: Promoting education, recreation, athletics, housing, safety, fire prevention and civic improvement; studying legislation, tax and flood control problems; handling military affairs; and answering thousands of inquiries about the county every year.

The final page asks: "If the Crockett and Houston County Chamber of Commerce wouldn't do these important things for you... WHO WOULD?"

And if the civic-minded people of Crockett and Houston County wouldn't support the chamber of commerce, who would?

It involves: Making surveys and traffic counts, studying legislation planning needed road improvement,
