FROM KNOXVILLE [(TENN.)] [uncertain] JOURNAL.

The late Thomas Jefferson has had a tremendous amount of advertising over the years ag one of the patron saints of the Democratic party. His name has been mentioned more regularly in the course of [linlng] [uncertain] up the faithful than that of any other mas, with-the possible exception of that of FDR in the last few years. In view of the position which this great American established for [hls] [uncertain] name in the memory of his successors in polities, as a matter of fairness t should be noted by current generations that references to him by [lsterday] [uncertain] Democratic leaders is strictly a fraud and, furthermore, tremendous injustice to the great Jef-

he said, and I always connect his ambition with his pals shiftlessness.

He died young but imagine he made quite a bit of money." J

Yes, he did," agreed his informant, and he left a very beautiful widow."

WE SALUTE RICKENDACKER,

According to a recent story [Capt] [uncertain] Eddie Rickenbacker, speaking at chamber of commerce dinner in Pittsburgh for Eastern Airlines, declared he [The] [uncertain] does not believe in government [laubsidies] [uncertain] or handouts for anyone."

Thanks, Capt. Rickenbacker, for your sound American thinking. This of is [espocially] [uncertain] heartening when we re-ag member the airlines have [been—and] [uncertain] to still [aro—recipients] [uncertain] of huge [govern-] [ymment] [uncertain] subsidies. Capt Rickenbacker's view is also the view of the railroads. They re

A [recent] [uncertain] spot survey of thirty-alex [countles] [uncertain] in east [Texae] [uncertain] indicates one of the best feed [creps] [uncertain] in years for the whole of east Texas. Corn, for instance, showed an increase of 15% in acreage and prospective yield [pof] [uncertain] 315 bushels per acre. This [is}??] [uncertain]

more than double the Texas average yield. Eighty per cent of the acre [jae thia] [uncertain] year was planted to hybrid y [orn.] [uncertain] Other feed crops included in the survey were [Gooner] [uncertain] milo [malse,] [uncertain] hebert, [sagrain] [uncertain] and [kudeun,] [uncertain] all of which showed good prospective yields.

In line with our Grow Your Own [1] [uncertain] Feed" program, it would appear from [thie] [uncertain] survey [epat] [uncertain] Texas stockmen have made good [atart] [uncertain] toward producing a carbohydrate feeds. The survey also revealed, barring unfavorable weather and insect damage, east Texas will have its best yield of cotton in years.

One of the foundations of [rallroad] [uncertain] [asfety] [uncertain] is the enforcement of operating rules. [Eailroad] [uncertain] men are achool-

[9] [uncertain] ed in these rules from the day they are employed. They are examined upon them and their understanding of them, time [aftre] [uncertain] Ume, Obedience is requirement, and, in case of infraction, violators are subject to discipline [ciplinary] [uncertain] action. The making end [Wienforrement] [uncertain] of operating rules is fundamental of [ruliroed] [uncertain] efficiency and safety. The railroads have already had experience with the effect [upen] [uncertain] rules enforcement and discipline of the intrusion of a government

The most surprising and paradoxical fact of modern history is the failure of the economically better off and supposedly more intelligent classes of the people in countries throughout the world to take any

effective organized political action to defend themselves from the organized political effort being made to destroy private property and the private [vate] [uncertain] enterprise by which it is created and managed.

A young man in Los Angeles filed charges against two young women, charging that the young women had deprived him of [hia] [uncertain] pants, his money and his chastity, and that charges would be [diamised] [uncertain] on return. At Fort
