ECONOMIC HIGHLIGHTS

States, cities and other local gov-
ernments have been searching frantically for new sources of revenue.
The cost of road building, fire pro-
tection, police services and all other
functions has skyrocketed. Local of-
ficials say, with considerable justification,
that the taxpayers demand good and
expanding services, but that they lack
the money to pay for them. It is
something like the case of the irre-
sistible force meeting the immovable
object. And one of the major reasons
for the difficulty is the ex-
treme to which the Federal govern-
ment has increased its share of total
national tax revenues.

U. S. News and World Report re-
cently published a revealing graph
to illustrate the trend. In 1940, the
Federal government took \$5,000,000,
000 in taxes, and state and local gov-
ernments took \$3,700,000,000. In other

SWEETS OF MANY COLORS PRODUCED IN LOVELADY

Lovely, August 24—Every one
has eaten candy lately, but few people
in the United States have seen it
made.

Those stripes are tantalizing. Some-
times there are a wide one and three
small ones, and at other times there
is a series of only small ones, or only
large ones. And there are many
other varieties.

Mr. and Mrs. Jimmy King moved
from Houston three years ago and
started a candy factory at Lovelady.
King was formerly a candy maker for a
large grocery store chain in Houston,
having worked for it 20 years.

King's former boss is one of his
best customers. Each week King
ships about five, and sometimes six,
trucks of candy to the store chain.

King is planning to
double the capacity of the plant.
The 60-pound block is made in
the factory, then molded into an
oblong block. The block is soft and
it melts.

King's candy is made in the same
manner as other candies, with me-
chanical taffy pullers so common in
all candy stores.

To handle a 60-pound block of
candy, heavier machines are needed.

BIGGEST LOBBYISTS ON PUBLIC PAYROLL

At a recent news conference Presi-

Democrat from his home state who
has big appropriation for public power.

for lobbying against the public power
program.

To hold down the growing deficit
between income and outgo, it follows
that the government must cut its
expenses. It saves pennies by pinching on
such vital and legitimate functions as the
forest service, coast guard, market
roads, harbor improvements and sim-
ilar activities which are strictly gov-
ernment services of a public char-
acter.

Then it needlessly wastes billions
on such schemes as public power de-
velopment which would otherwise be
carried on by highly taxed private
enterprises. Thus it destroys or pre-
vents the building of much needed
tapping industry.

It is time the people wakened to
the fact that the promises of politi-
cians to give them something for noth-
ing in return for their votes is a
polite method of swindling them out
of their savings through higher and
higher taxes.

Woman's old problem
relieved by 2-way belt

What to do for woman's old
problem, functional monthly pain?
Many a girl and woman has found
the answer in Carter's 2-way belt.
You see, Carter's 2-way belt
relieves your pain in two ways:
(1) started 3 days before
"your time" and taken as directed
on the label, it should help relieve
functional period pain; (2) taken
throughout the month like a tonic,
it should improve your appetite, aid
digestion, and thus help build up
resistance for the trying days to
come. Carter's is scientifically pre-
pared and scientifically tested. If
you suffer "all those certain things,"
get Carter today.

Ad Talk.
A retail grocer, when asked why
he advertised regularly, came up with
the answer, "Advertising is cheaper
than doing it the old-fashioned way."
He was referring to the problem of
getting goods if they are left on the
shelf for long. Advertising, he said,
moves them so quickly that doing it
is unnecessary.
