BISHOP SMITH WILL BE HERE FOR REVIVAL OCTOBER 2-7

"We feel very fortunate in being able to make this announcement to the Crockett people," said Rev. LeGrand. MORE EMPLOYEES HURT OFF THE JOB

Almost twice as many American workers are killed by accidents away from work as are killed on the job, the National Safety Council reports.

Of the 46,000 workers accidentally killed during 1948, 22,000 or 66 percent were killed in non-occupational accidents—in homes, on streets and highways, or in other public places.

Disabling injuries totaling work days lost amounting to 4,600,000 during the year, and 2,600,000 or 56 percent of these occurred off the job.

Despite the fact that off-the-job accidents occur on the worker's own time, they cost industry heavily.
