Naturally, the public [intereat] [uncertain] in the railroads is not limited to such financial considerations as thea. Every farmer and every business depends upon [ewift,] [uncertain] efficient and reasonably priced railroad service a move crops and goods to market. Every consumer in [aetved] [uncertain] daily by the railroads, whether he realizes it or not. Every unit of government shares in the "bullion year tax bill the rails pay.

FAIR RETURN, FAIR WAGE,

In the letters column today, M. M. [Johnson] [uncertain] of Dallas [asacrts,] [uncertain] perhaps on the [basia] [uncertain] of belief, certainly on [nune] [uncertain] of [knuwledgs,] [uncertain] that The News is opposed to better wages and consequently better living conditions." The statement is, of course, prepor- [Aervusly] [uncertain] untrue. Both in principle and precept, The News stands for satisfactory rewards for the worker, for both organized and unorganized labor.

If Mr. Johnson means merely to utter a deceptive [phraac,] [uncertain] he is right in the fact that [nelther] [uncertain] The [News]" [uncertain] nor any one [exrept ths] [uncertain] conscienceless worker believes in better wages. [inacfay] [uncertain] as this means more than is rightly earned.

To set Mr. Johnson right in his thinking, The News believes in [gvod] [uncertain] pay for good days work. The News does not believe in paying wages to any man, or group of men, for work that they do not actually perform under any specious pretense. The News does not believe that any [nterpriae] [uncertain] should be compelled by any group to employ men who are not needed to do work that does not need to be done. The News does not believe that the mere desire of any [group,] [uncertain] of employees for higher wages should give them the right to impose their will at the cost of [inveatora] [uncertain] who have bigger [atake] [uncertain] in the [succwes] [uncertain] of the enterprise. The News

does not believe that without either the knowledge or the ability to conduct) an enterprise successfully and efficiently, an employee group should have the right to [subettute ite] [uncertain] arbitrary will for the function of [managrmnt.] [uncertain]

The News [belicves] [uncertain] emphatically in fair play for investor and employee. Their interests are identical. Without [eqund] [uncertain] operate in which everybody does his best, the stockholder can not derive fair [profi,] [uncertain] and the worker can not draw his fair [wage.—] [uncertain] Dallas News,

DR. M. A. THOMAS.

Dr. M. A. Thomas of Crockett, [Tex:] [uncertain] as, entertain no thought of retiring. Truth is, Dr. Thomas is doing a job he loves he still is bringing babies into the world.

His score to date is approximately 4,000, but where he used to deliver [arvund] [uncertain] 100 babies per year, the number is about [0] [uncertain] now, His minimum charges for a confinement, however, [arr still!] [uncertain] those he has always had: \$15.

He then the practice of medicine because he wanted to help others. And more than one Crockett druggist will tell you of stormy nights when

[Dro-Thomas] [uncertain] has awakened him to any:

I've got a penniless patient who may die if she doesn't get medicine.

If [youll] [uncertain] give the drugs, [71]] [uncertain] administer them."

No druggist [refused] [uncertain] his pica [tle bimeelf saya] [uncertain] nothing of these deeds. Nor will he verify the report that he once wrote a treatise on ab- [stetrica whxh] [uncertain] astonished big-city physicians for [ite] [uncertain] brilliancy.

[dont] [uncertain] remember," he says, us-

In [hia] [uncertain] old age as a defense.

On his 84th birthday, he was nominated [nated] [uncertain] as Crockett's guest of honor.

High tributes were paid him. Only thing wrong with the affair was this:

He [waant] [uncertain] there.

"I want going to take advantage of my old age," he told friend.

Besides, it's likely he was bothered about an approaching birth and [didnt] [uncertain] have time for such [tumfoolery.—] [uncertain] Texas Parade.

ECONOMY DRIVE COLLAPSES.

The breast beating and the flag waving are over, and so is the great [economy] [uncertain] drive in the United States senate. Those [championsof] [uncertain] the lax- payer who promised to make the pres- [ident] [uncertain] of the United States cut off from 6 to 10 per cent of all appro- [priations] [uncertain] approved by [congress] [uncertain] failed on their undertaking.

Even though 64 senators had aligned a resolution demanding a vote this over-all economy proposal, only

[44] [uncertain] stood up to be counted. This was four votes short of the two thirds required under ruling by the vice-president that the proposal constituted [tuted] [uncertain] legislation in an appropriation

As a result the government of the

United [HKtates] [uncertain] gore on its merry, [apendthrift] [uncertain] way. The deficit in the present fiscal year, according to the prediction of Senator Hiram F. Byrd of Virginia, will be between \$5,000,

[illegible or non-text passage omitted — see scan]

This [aad] [uncertain] venture probably ends the drive for economy in the cost of government as far as [thle] [uncertain] session of the [Eighty-First] [uncertain] congress is concerned. No practical way of making any reductions now remain.

Credit must go to the 49 senators who voted to try to bring the national budget more nearly into balance. The taxpayers should remember those who hated [againat] [uncertain] the [proposal,] [uncertain] among whom, we [ereret] [uncertain] to report, were both of the [aenutara] [uncertain] from the alate of
