FIRST STEP TOWARD SOCIALISM TURNED DOWN BY CHAMBER

The Crockett city council is to be [cotamended] [uncertain] on its disposition of tho [sition] [uncertain] offered for government ng. The proposal was for tho government [constraction] [uncertain] of housing for the [underprivileged—those] [uncertain] unable to [bulld] [uncertain] houses for themselves. When- ave the earnings of these govern- ment-housing occupants reached stat- ed amounts, the proposition included

their removal, to be succeeded by oc- [qupents] [uncertain] earning bees. The people know by this time that government- constructed housing for the under costs much more than It [Jought] [uncertain] to and endures a much shorter time than it should but the worst thing about it is that it is a brand of socialism. It le an encroachment on home ownership and an encoursye- [ment] [uncertain] for the further [cntry] [uncertain] of tho government into the business affairs of the

people. The next step would be government ownership of land for certain classes, leading into govern- [ment] [uncertain] ownership of farm lands, which would point to the final ownership of everything by the government, the [sjthing] [uncertain] known to us as socialism. An sJin England, government ownership of [eoml] [uncertain] mines, railroads and all public [utilitles] [uncertain] would follow. Aa in Ruasia, everything else would become govern- ment-owned and operated, a thing known as communism, but beginning [Iwith] [uncertain] socialism. Socialism destroys [4] [uncertain] the incentive to own your own homo and to carry on your own [buslncns lim] [uncertain] your own way. The unfortunate tare being cared for rightfully by [Ai] [uncertain] state laws, az they should. It seems Ito be matter of states [rights—] [uncertain] leach state caring for its own un- 9) [fortunates—and] [uncertain] not a matter for the national government, in its prodigal- ly expanding [national] [uncertain] expenses,
