The two [facta] [uncertain] that stand out in the Tuesday election [returna] [uncertain] on the ten amendments are that the vote was

ts a ROOM IN THE [RHOUSE?] [uncertain]

In 1022, Franklin D. Roosevelt, then a presidential candidate, [had:] [uncertain] this to say [aboul] [uncertain] government spend.)

[illegible or non-text passage omitted —

Any government, like any family,) can for m year spend lite mere than [itt] [uncertain] earns. But you and know):

[thet] [uncertain] a [cuntinuance] [uncertain] of that [habit}] [uncertain] means the poorhouse."

Those words, important [seventech] [uncertain] years ago, have even greater [signif}] [uncertain] [cance] [uncertain] today. Why! Because in every year since 1932 [(with] [uncertain] the ex-) [ception] [uncertain] of the two fiscal years immediately following the war) our Fed- [eral] [uncertain] government has spent more [thas] [uncertain] it has collected!

Surely the time has come to make our present administration realize!

that government which [continually}] [uncertain] spends more than it collects cannot!

long remain strong and healthy. In 1932, our [Federal] [uncertain] government spent 4% billion dollars. For the [fis-:] [uncertain] cal year of 1950, it is estimated [that}] [uncertain] our Federal government will spend): ten times that [amount—45] [uncertain] billion [dol-}] [uncertain] lara. To give you an idea of just how much money this is, consider these/ facts: [2.] [uncertain] If every one in the United [States!] [uncertain] cashed in all of bis life insurance policies, the total would amount to

44 bilbo dollars, Toi would [oot] [uncertain] be enough money to run Lhe government for one year.

2 About 1) million urban [familes] [uncertain] [uwn] [uncertain] the homes they occupy, valued at 50 billion dollars. If converted into cash, this amount would run the gur- [ernment] [uncertain] for only months. 3. About 8,000,000 farmers farm their [wwn] [uncertain] land, valued at 17 [billiunf] [uncertain] dollars. Hesides this, they own tools and" livestock [ralued] [uncertain] at billion dollars. Hf converted into cash, the to- [tal] [uncertain] of 25 billion dollars would operate our [government] [uncertain] for leas than [7 montha.] [uncertain] 4. If every manufacturing corps ration [conrerted ita] [uncertain] net working cap- [ttal] [uncertain] into cash, the total would [amownt] [uncertain] to [39] [uncertain]

billion dollars. [Thats] [uncertain] hardly enough to run the government for a [montha.] [uncertain] Theee facts put new light on the [Magerring] [uncertain] wise of our Federal gov- [ernments] [uncertain] planned [68-dfillen] [uncertain] dollar expenditure for the fiscal [rar] [uncertain] of

1960. Aad remember, this [axcesaire japendiag"] [uncertain] ia la the face of a rational debt of more than 250 billion dollars! [Tent] [uncertain] it as true today, as it was in

CONGRESSIONAL MEACTION TO DEFICIT.

[Congresawna!] reacthin] [uncertain] to the an. [nouncement] [uncertain] of the president and the budget bureau that the country may anticipate a deficit of \$5,500,000,000' the fiscal year has been immediate Despite the fact that [membera] [uncertain] of the senate and house must share the blame for the lack of balance are de Income and outgo, the legislators do not like the idea of additional red ink upon the federal ledgers.

[Protests] [uncertain] against the condition bare come from beth this country and [abroad—the] [uncertain] latter point being where eo many of our lawmakers are at the moment travelling. The specific remedy suggested by few le that there must be a cut in the aid which, we are giving to other nations

It ts obviously true that the United [Atates] [uncertain] is being exceedingly generous, with the [taspayere] [uncertain] money in foreign lands. In the present [\$46,000,000, 900] [uncertain] budget 14 [centa] [uncertain] of every dollar [wil]} [uncertain] go for foreign aid. Nearly all

of the amount ia on non-returnable base in the form of gifts and granta.

Cuta can be made in that direction and should be instituted at the earliest possible date. Dut foreign aid ia not the only point cf attack. There is fat In the [remaining'\$ 40,000,000,] [uncertain] 000 Money can be saved by a proper [appheation] [uncertain] of armed service unification. Our [bereaverate] [uncertain] do not need to throw money around as they do to convince the ordinary [citusen] [uncertain] of [thelr] [uncertain] import- once, The welfare state program can be curtailed beth because much of it is Socialiatic and against [American] [uncertain] principles, and also because the parts that have some merit are too rich for out blood tn the [immediste preeent] [uncertain]

The Chronicle [haa] [uncertain] no desire to discourage those congressman who leap first to the Wea of curtailing our foreign aid program. They have a worthwhile objective but what ia needed is realization that there must be general economy n government and that we cannot permit either states ar [municipalities] [uncertain] to live almost [excluaivety] [uncertain] off the federal puree And more
