RIGHT FOR THE ROLE . . . Playing Santa Claus for young victims of polio and cerebral palsy is opera star Lauritz Melchior, shown reading a Christmas story to Thomas Precious and Patricia Pullo.

Danger of Fire Is Greatly Enhanced By Christmas Tree

THE AVERAGE CHRISTMAS tree can go up in smoke in only [illegible] minutes. That doesn't leave much time for the fire department to [illegible].

A live tree with roots [illegible] a bucket of earth [illegible] and festive trimmings can make up what it lacks in size.

Keep the tree outdoors until you are ready to set it up inside. When you bring it in, keep it in the coolest part of the house with the radiator nearest it turned off.

Use nonflammable aluminum foil, not cotton or paper, to conceal container in which tree is "planted." Use nonflammable trimmings on the tree.

Don't use lighted candles. (This may seem an unnecessary precaution in this day of electric lights, but lighted candles contribute to tragic fires every year.)

Check the wiring for the tree to see that it's not frayed and is in perfect condition. The switch for turning off and on electric lights should be at some distance from the tree. Don't plug or unplug lights beneath the tree.

Don't leave tree lights on when it isn't necessary and especially when the family is away from home. From time to time, check over the tree and see if needles near the lights are turning brown. If they have, move the lights.

Watch the calendar. New Year's is the day for the tree to go down. If you should extend the time, don't leave the lights on the tree for more than a half hour at a time.

A woman who lost her thumb in a train wreck was awarded $60,000 as damages by a female jury, because it was the thumb she kept her husband under.

First it's the mother in law; then it's the father in law; next it's the sister in law; and then it's the brother in law. Finally it's the attorney at law.

His dad admonished him to never let grass grow under his feet so he joined the navy.

If all of us profited by our errors we'd be busy declaring dividends.

HARD TO GET . . . Mary Jane Ng (yep, that's Ng) is only 14 months old, and as a result is playing hard to get with Santa. She was at a Christmas party held for 450 underprivileged Bowery children in New York.

Soap Flake Snow

Trimming the Christmas tree with fluffy snow is easy if you use soap flakes. It won't melt either.

Here's how it's done: Use three or four cups of soap flakes to one cup of warm water. Beat with electric beater or hand beater until smooth and fluffy. Then spread immediately over branches of tree, scattering it on with hands.

For sparkle, spread on some artificial glistening snow.

Carrier and Ives Cards

Commercial production of Christmas cards in the United States began about 1835 with the founding and developing of the partnership of Currier and Ives in New York.

For more than a century American painters have aided the industry by painting Christmas themes on order or by selling reproduction rights to the art which is now conservatively estimated as worth $10,000,000 annually.

The favorite Nativity theme is represented by hundreds of interpretations. Winter scenes are next in popularity, some of them dating back to the Puritans of New England, the German forests whence St. Nicholas emerged, and even to the Druids of pre-Christian England.

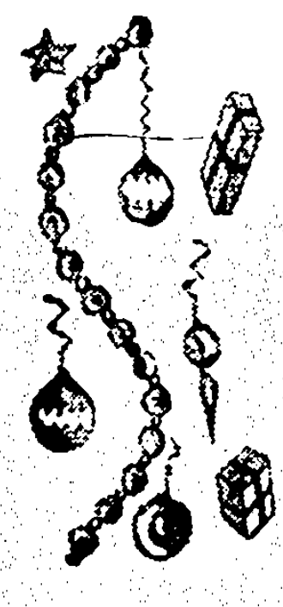
If and when West Point plays Sing Sing we'll know for sure then whether the pen is mightier than the sword.

There is very little difference between foreign dishes and American dishes. They both break easily.

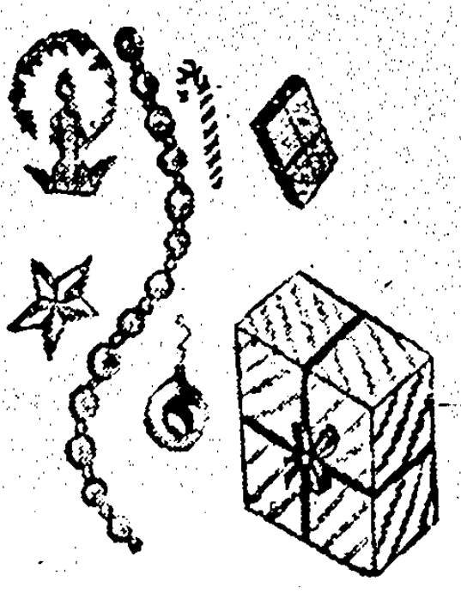
Uncle Sam's crapshooters brought back about as many medals as his sharpshooters.

May the wonderful tidings of Chistmas sound in all your hearts.

Davy Crockett Federal Savings and Loan Association
Beasley Building, Crockett, Texas



To all the good people of our town we wish the sum of all happiness.



Let us share the joy of the season without stint.
