Make the Covering Gay When Wrapping Up Gifts

HALF OF THE GIFT is the wrapping. Let's make the covering as gay as the gift inside.

For the girl who likes to sew, material for a dress in a festive, wrapped box, tick rack for the ribbon and spools of thread with big buttons for the decoration create an unusual package. If you give yarn for a sweater, use one skein for the big bow.

Design a flat box of letter paper as a desk pad. Use a real blotter on top with corners of metallic paper.

Why not use a necktie knot in decorating the box containing a tie? Fasten the ends of the ribbon under the lid about 1/2 way down; bring to center; tie the knot and shape the ends the fashion. Use a dark blue, white or green ribbon about one and one-half inches wide. These are attractive used on a striped or plaid paper.

Or the package might resemble a tiny suitcase wrapped in paper with the ends bound in decorative tape. Add a handle and identification tag.

Anybody who ever tried to steer a boat can understand why they call one "she."

If you owe an ancient bill and your conscience won't be still, and your neighbors hear ill will forget it.

Smith-Murchison
Hardware Co.

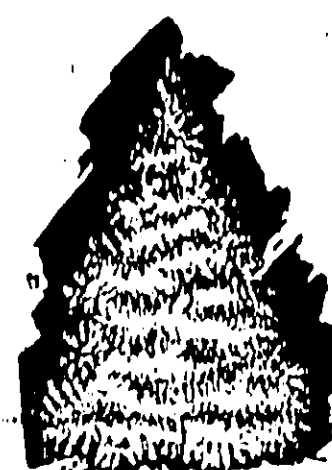

Hawaiian Christmas Is Elaborate Affair

Although many Hawaiians have never seen a Christmas tree, the islanders for Christmas decorations are painted white to simulate snow.

Christmas dinner is an elaborate affair, enjoyed in the privacy of the home behind locked doors and drawn blinds. Any open house has pitifully in an immense impossibility; if the shades were not drawn and the doors not locked, homes would be invaded by hordes of strangers all expecting food and drink.

Gift giving is the order of the day on every exchange; expensive presents. Even the new arrivals in hotels expect and receive gifts from over night guests.

HOW WILL YOU SPEND CHRISTMAS-EVE IN CROCKETT

(Written just before the Courier goes to press with our Christmas issue.)

The Night Before Christmas is a lovely poem to read to children this time of the year and older ones get a lot of enjoyment in reading it to

the younger members of the family, but have you read one of the newer versions of the Night Before Christmas? Especially the one which has appeared twice recently in an advertisement in the Dallas News entitled "The Night Before Christmas... in Texas, That Is." It's clever, and after reading it perhaps you can write your version of the night before Christmas in your own home. Perhaps these would be ideas of what would take place:

Besides the glow from the lights on the Christmas tree in many homes, Christmas eve night there will be that "hunting" about all over the house

to put the last minute touches to decorations on the tree, or perhaps none will rush about to tie up last minute packages to go under the tree or to give to a friend or relative. In another home perhaps a big family group will gather around a tree for an annual family Christmas get-together. Over the years in our town we can think of many large families where the circle has grown...

In various ways, perhaps by a friend, a new addition, by marriage or a new baby added to the family group. It is just within such a family gathering around the Christmas tree that each others joy or sorrow are shared in such a way that this kind of "sympathy" binds the members of the family group closer at Christmas time, and remains a cherished memory to remember always.

Then there may be homes in our town where there are members of the family, or friends who are shut-in and can't take an active part in festivities. These will be remembered by friends who will visit them, and by groups who will call to sing the Christmas carols at the door, and have Christmas eve night will be the one in uniform this Christmas.

Perhaps in other homes some joyful, happy group will drop in "behind the tree-top glitters" to wish all in the home a merry Christmas before going merrily on their way to wish others a happy holiday.

In other homes the cat will get stepped on—the children will be too excited to sleep—or POP will be the one that is "having a wonderful time" with Junior's new electric train; in fact, a beautiful supply of enjoyment and contentment will be everywhere in our town that night.

So with our own thought for a Christmas-eve night—we say (as we go to press)

M-E-R-R-Y CHRISTMAS, you all, and to all GOOD-NIGHT!

REPORT ON THE
WELLS-LAMONT
CORPORATION

Following our meeting Tuesday, December 11, discussing the possible location here of the Wells-Lamont Corporation, several committees immediately went to work to see if it were possible to raise enough money to make an offer.

Wells-Lamont had suggested that they would like to have a 25,000 square foot building, rent free for ten years with an option to renew it for another ten years and in return they would guarantee our town a million dollar payroll during this ten year period.

It was not possible for us to get the hundred thousand dollars it would

take to build this building, as we prepared to offer them a site and cash bonus.

By noon Wednesday, 24 hours after the meeting, \$20,000 and a site had been pledged.

I want to take this opportunity to express the appreciation of the chairman of committee to the individuals committed, Robert King, chairman, and to all those who worked so hard raising the money and to those who pledged their support.

C. W. Kennedy Jr. and our chairman, Robert Sharkey, left Wednesday to meet with Mr. Wells and other company officials in Dallas on Thursday. They made our offer to them of the site and bonus and pledged the support of the citizens of Crockett and explained the many intangibles that Crockett has to offer.

Mount Vernon, Texas, has offered Wells-Lamont the type and size building they need, free of rent for as long as they will use it. This offer, of course, surpassed ours, but we feel that Wells-Lamont is still interested in Crockett and before their final decision is made, this week in Chicago the natural advantages of Crockett over Mt. Vernon will be weighed heavily.

Our location, highways, population, water supply, park, churches, schools and businessmen impressed the officials very much, and these mean a lot to industry.

Even though we may not meet with success on this attempt, we do know that we made a good impression on the company and that they will have us in mind for further expansion and that our efforts to locate this work will be heard of by other industry.

We also know that Crockett is capable and ready to go all out to locate industry and that we are making good headway in founding our goodwill with industry. A good town like ours and the good feeling we have left with these people will certainly be heard of by other industry.

Sincerely yours,
Frank Towery, President.

HOUSTON COUNTY
GETS WILDLIFE
INSPECTION

Austin, Texas,
December 14, 1950.

Mr. Jack Ashby
Crockett, Texas.

Dear Mr. Ashby:

Mr. E. G. Marsh has referred your letter of December 7, requesting inspection of some seventy or eighty thousand acres in Houston county, to me.

I regret to inform you that we will probably be unable to place deer on the area this winter, as the deer trapping program terminated on November 20. However, in case the area proves suitable and the necessary contracts can be completed, there may be a possibility of releasing a few turkeys in late winter. This arrangement would also allow sufficient time for the landowners to form an association and be in a better position to take care of the deer when they arrive next fall.

I plan to be in Crockett in the early morning of January 4. If this date meets with your approval, an inspection of the area could be made with you and other interested persons. Perhaps the meeting of landowners could be held that night following the inspection trip. This arrangement would give me an opportunity to discuss the project with landowners and other interested persons. There should be as many of the general public present as is possible to get out, because the public attitude will in a large measure determine the success or failure of the venture.

Signing the contracts can be begun

at the meeting, provided the field inspection shows the area to be suitable.

If the above data is not satisfactory, please notify me and another can be arranged.

I wish to express our appreciation for the interest you, Mr. Huntman and Mr. Hamming have shown in this effort to reduce deer and turkeys in Houston county. Having dealt with a number of such undertakings, I am sure you that I realize the large amount of time and effort required.

Sincerely yours,
Eugene A. Walker,
Wildlife Biologist, Division of Wildlife Restoration.

The meeting will be held on the
