What Do You Want
In A Loan?
Here is what another person wanted:
"If I were getting a loan, I would look for low interest and long terms. I would
want the privilege of paying any part of the principal or the loan in full at any time
without penalty.
I would also look for a loan from a lender that operated on a sound basis, and
one that was best fitted to serve the interests of farm and ranch people."

We need these tests and many more and would like to tell you about
our loan.
