PUBLISHERS NOTICE

In case of errors in printing, the publishers do not hold themselves liable for damages, further than the amount received by them for such advertising. Advertising is accepted on this basis.

Any person reflecting upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this paper will be gladly corrected upon its being brought to the attention of the management.

The Crockett Courier makes no distinction in the columns of this paper between the columns of a person, firm or corporation which may appear in the columns of this paper and the columns of a person, firm or corporation which may appear in the columns of this paper.

Parties advertising in this paper are responsible for the payment of the bills.

PLANNERS' OUR GREAT MENACE

The greatest danger to American institutions is not the party machine. Communists, John T. Flynn pointed out to a convention here, but the "national planners" who are seeking to take over the entire American economic system. These national planners include both Socialists and Communists.

The noted author and economist warned his audience, the Association of American Physicians and Surgeons, that the national planners have gone far toward achieving their objective, and that if those who are not yet on government do not stand up and assert their freedom, they will succeed in making ours a totalitarian state.

He is being duped by "European-trained professionals," he declared. "We have always believed that Americans stop to think they are not."

He said he was so old he could not remember when the big dipper was just a drinking cup.

Why are more and more women switching to the new modern Electric Ranges?

They save time, trouble and money!

Yes, ma'am, a modern electric range saves you time, trouble and money... gives you a completely new outlook on cooking!

A new electric range saves you time, because it's fast—high-speed cooking units are instantly ready for use.

An electric range saves you trouble, because it's modern—it incorporates the newest cooking conveniences.

Accurate temperature control cuts on and off automatically, so that much of the cooking is done on stored heat. There's no smoke or soot to blacken pots and pans, grey walls and curtains when you cook electrically, so kitchen clean-up time is cut in half.

A modern electric range saves you money, because there's less food shrinkage. What's more... dependable electricity costs only one cent per person per average meal!

No wonder more and more women are modernizing their kitchens with new electric ranges!

AMERICAN WAY IN IRAN

The kids in the capital of Iran now have a play park, complete with slides, seesaws and flying rings—thanks to Mrs. Henry Gray, the American Ambassador's lady.

The gracious woman, recently arrived in Tehran, found that the tiny tots in Persia were playing even though the Ambassador's lady had been in Iran for two years ago. It was a new park, she said, and she had been the ambassador to Persia for two years.

n PERMANENT BEAUTY

[Daffodils_are] [uncertain] a permanent investment in springtime" loveliness. You plant them as early ag they [ean] [uncertain] be obtained this fall and they will bloom without question next April or May and for many-springs thereafter, usually increasing their numbers with each new blooming season. You can lift and store the bulbs after they have flowered and the foliage has ripened, but most gardeners set out annual flowering plants between and over them and allow them to-remain in the ground undisturbed until they need to be separated. Then, replant them at once or store the bulbs for a short period and replant in early September. No other hardy bulbs are easier [to}] [uncertain] grow than daffodils. They require a soil of only average fertility [and]] [uncertain] they may be planted" in sun or [semishade.] [uncertain] They flower best in- a moist but well drained site in groups [in.] [uncertain] the flower borders, in natural: [colo-] nies] [uncertain] under trees and shrubs and [in]] [uncertain] drifts on the lawn, along the [wood-:] [uncertain] Jand path or in other gardens of [na-] [uncertain] give plants.
