OLD TEAM REUNITED,

Tho designation of Robert A, Lovet un
deputy secretary of defense unite an old
team. Mr. Lovett, Houste horn and New
York trained, serve with Gen, George C.
Marshall, [noy] [uncertain] secretary of
defense, in both the Wa and State
departments, They [hav] [uncertain] often
co-operated effectively in [publi]

years; [ther] [uncertain] is no reason why
they should not th so again,

became an Influential figure in the
[investmon] [uncertain] banking business.
In 1940 he accept.

od a post as special assistant to the

[Recretary] [uncertain] of war. In doing
so he resigned all of his business
[conncei" tions] [uncertain] and
abandoned the posts of a civic and
philanthropic nature which he occupied.
Even before Pearl Harbor Mr. Lo- [vett]
[uncertain] assumed a more active part in
the defense activities of the United States.
He became assistant secretary of war for
air and was instrumental in the
development of the aviation industry so
that it could build the

60,060 planes a year for which Pres-
[ident] [uncertain] Franklin D. Roosevelt
called. Mr. Lovett was forced, because of i
ill health, to withdraw from public service
in 1945, but when General

Marshall returned to the State De-
[partment] [uncertain] he prevailed upon
Mr. Lo- [vett] [uncertain] to become his
undersecretary, He left that post at the
same time that

General Marshall resigned as svere-
[tary] [uncertain] of state.

This is a record of which Mr. Lovett
may be proud and for which the coun- try
may be thankful since it will en- able the
native Texan to step into his new post
trained not only in the gov- [ernment]
[uncertain] service but specifically in the
conduct of the armed services. Mr.

Lovett will, no doubt, continue to ren-
[der] [uncertain] the sort of distinguished
service in the new post which he
contributed to the government in the
course of the past 10 [years.—Houston]

THE FALL GUY,

Congress fiddled politically and [rought] [uncertain] out the new tax bill on the ve of its application" so far as the [vithholding] [uncertain] operation is concerned employers must begin deducting for [mployee] [uncertain] wages, starting October 1, under a bill that was not enacted into AW until within a few days of the [ixed] [uncertain] date. The hardship is clear [nough.] [uncertain] Many pay checks are handed [ver] [uncertain] by the week and for many em-Idyers this means a complete change [ver] [uncertain] in the [mechanics] [uncertain] of collection,

The fact should add fuel to the fire t by the indefatigable Vivien Kelims up in Connecticut, who has been [rguing] [uncertain] rightly, but so far [unsuccsfully,] [uncertain] that the Federal [government] [uncertain] is unconstitutionally forcing the, [employer] [uncertain] to act as a collecting agency [ithout] [uncertain] pay. Had Uncle Sam [conmplated] [uncertain] doing his own collecting as f October 1, you can be certain that ingress would have had the tax bill asked long enough back to give the [easurys] [uncertain] field forces ample time in [high] [uncertain] to make their

preparations and ill take advantage of the five-day eek,

Taxes should be paid directly by the [xed.] [uncertain] No agent of collection should compelled fo act involuntarily or [ithout] [uncertain] compensation, let alone at the gh expense which the present [une,] [uncertain] st and unconstitutional method of [ithholding] [uncertain] assesses against the [emoyer.—Dallas] [uncertain] News.

PREDATOR CONTROL IS A BIG PROBLEM.

College Station, September [26—;:] [uncertain]

Predatory animal control is a big [prob-:] [uncertain] lem jn Texas and its size is indicated by the annual report on the predatory animal control operations of the [U.].] [uncertain]

S. Fish and Wildlife service. [The;] [uncertain] report reveals that 30,395 predatory animals were taken during the control year 1949-50 by their hunters.

During the past year, predatory animal control work was carried on in 106 counties [in;} [uncertain] the state by an average force of 130 hunters. In addition to this work, a few ranchers employed their own hunters, and game associations and county governments paid bounties for trapping the animals. [Lod] [uncertain]

Of the 30,395: animals" taken" last year, 27,176 were coyotes...An important part of this catch included a total of 1,105 coyote pups which were taken from dens, mostly in the Lubbock area. A new record was set in taking a total of 2,829 bobcats in Texas last year. Since very few bobcats are caught" accidentally while trapping coyotes, the number taken was primarily the result of a special effort toward bobcat control with steel traps.

Widespread control action in wolf country resulted in a total of 356 red wolves being taken last year, an increase of 50 per cent over the number taken in 1948-49. Although no specific full-time projects are directed toward mountain lion control; 18 of these animals were caught"

by the hunters in addition to their other [prejator] [uncertain] control activities.

EVENTS SHOW ADMINISTRATION RULED BY LABOR

head. Nevertheless, it is my duty to cry out against movements that threaten the life of this nation.

Our president, like many [members] [uncertain] of congress, is in effect a prisoner of the labor bosses. At the behest of the politicians, and obviously for votes, the president has just fired our most able and conscientious official in the field of labor relations, to wit: Mr. Robert Denham general counsel of the National Labor Relations Board. [Apparently] [uncertain] the Taft-Hartley act is now to be misconstrued and emasculated or wholly ignored.

The president has just imposed necessary controls on segments of the [countrys] [uncertain] business, but no [controls] [uncertain] are likely to be imposed on labor. In fact the White House has practically invited the labor bosses to demand another round of wage increases in the big industries."

YOUR NET [SOCIAL] [uncertain] SECURITY CHANGE UNDER THE LAW

By L. R. James, Lufkin.

Beginning next [January] [uncertain] about eight million persons will come under social security for the first time and about two million more may come under by voluntary agreements. [Those.] [uncertain] who come under automatically are self-employed [uncertain] persons [(except] [uncertain] farmers), domestic [uncertain] workers in private homes and regular farm workers. Those who may come under by agreement are employees of certain non-profit organizations, [uncertain] and employees of state or local governments.

If you work for yourself at a trade or own your own business, you will be subject to the law and your earnings [uncertain] after this year will help provide protection for you and your family.

Examples of business which will be affected by the new law are grocery store, beauty parlor, filling station, barber shop, jewelry shop, laundry, drug store and cleaning and pressing shop. There are many other types of businesses and trades which will also be affected, but your income will not count toward social security if you [earn] [uncertain] it from self-employment from any of the following trades or professions: farm operator, physician, lawyer, dentist, chiropractor, veterinarian, public accountant and funeral director. Also, not counted will be income from real estate [(unless] [uncertain] you are in the real estate business) and income from personally-owned stocks or bonds. If you are a partner in a business, your income will count in the same way as though you were sole [owner—] [uncertain] this is true even though you, are also called silent partner."

You must have earnings of at least \$400 a year from self-employment [to] [uncertain] be affected by the law and "earnings [uncertain] over \$3600 per year do not [count.] [uncertain] If you have self-employment income that will count toward social security benefits, you will be required to report your earnings and pay your [social] [uncertain] security tax when you fill [your] [uncertain] income tax return for 1951, in March 1952. Your tax on self-employment income will be 24% through the year 1953.
