SOME ECONOMIC HIGHLIGHTS,

The problem of whether, in a free society, we should make membership in the Communist party illegal [clear-] [uncertain] ly involves deep questions of principle. Many non-Communists feet that it would establish a precedent of great [4] [uncertain] potential danger. Many others feel strongly that Communism at home is as great a menace as Communism abroad and cannot" be tolerated.

An extremely interesting contribution to this controversy has been provided by Justice Robert H. Jackson of the Supreme

Crockett Courier — October 5, 1950

Court. It is found in an opinion written by him in a test case before the court concerning the constitutional validity of that provision of the, Taft-Hartley act which requires that officers of a labor union file an affidavit that they are [né] [uncertain] members of the Communist party.

Mr. Jackson opened his opinion with these words: If the statute before us required labor union officers to forswear membership in the Republican party, the Democratic party, or the Socialist party, I suppose all agree that it would be unconstitutional. But why, if it is valid as to the Communist party? The answer, for me, is in the decisive difference between the Communist party and every other party of any importance in the long experience of the United States with

CENTENARIAN,

The New York Times slipped into its second century last Monday, and the only note taken of the event was to put the proper number on the first- page line for the new volume, Since the Times for this purpose sticks to [Roman] [uncertain] numerals, this meant merely

[illegible or non-text passage omitted —

The Times [ean] [uncertain] afford to be modest over reaching its [100th] [uncertain] milestone its Jeminence is not due to the fact that Jit has managed to survive six years longer than George Bernard Shaw.

That is a feat, of course. The first duty of a newspaper is to survive, as the Times" pert upstart of a contem- [porary,] [uncertain] the New Yorker, remarked not long ago in connection with the death of a less lucky daily. But the

Times is the worlds greatest newspaper [(begging] [uncertain] the pardon of the copy- right owners!) for sounder reasons.

The Times of New York is more alive and prospering than at any mo- [ment] [uncertain] in its past because those at [its] [uncertain] helm have mastered a rare knack, That is how to renew [itself—how] [uncertain] to keep up with the times, if you [will—] [uncertain] without throwing overboard its basic principles. The man who brought this secret to the Times was the late

Adolph Ochs, who took over the fortunes of the paper in 1896 at a time when it was about to go under.

Ochs not only saved the Times in the rocky years after the death of its co-founder and long-time editor,

Henry J. Raymond. He also infused it with sounder and more lasting [prin-}] [uncertain] [ciples.] [uncertain] He freed it of bitter, partisan narrowness and hitched its star to [the] [uncertain]

Geneval MacArthur has had his verities, Superiors have not warmed to him, but grudgingly or sincerely they have one and all had to admit that the general is a leader of men." He has proved himself so in peace [as}] [uncertain] well as in war. There is no blemish upon his record, no stain upon his, sword as a soldier or as a proconsul. The United States owes him a [debt] [uncertain] of gratitude which cannot be paid and we can only wish that in the nations future hours of crisis there always will be a man of General [MacArthurs}] [uncertain] stature,

General [MacArthur] [uncertain] has won [fame]] [uncertain] and honor on many [oceasions,] [uncertain] but the success he has just scored against the Communist hordes of North Korea [is:] [uncertain] a fitting capstone to a long and most honorable career. AID FOR EUROPE.

Senator Connally until now has been inclined to go along with whatever the executive branch of the government has asked for in the way of aid for Europe. He has been a staunch defender of nearly all of the extravagances in which the United States has engaged so far, The senator from Texas has insisted that the full amount requested by the State Department was the correct amount and has resisted economy efforts directed toward saving the American taxpayers some money.

Now Senator Connally is of the opinion that the Marshall plan appropriation for next year is more likely to be below the \$2,600,000,000 provided in the current year than above it. The most determined language in the statement of Senator Connally was in that portion which dealt with the need for additional activity on the part of the European nations who have joined with us in a program of military rearmament. They must get busy over there," she said, and they must aggressively increase their armed strength.

They cannot expect the" United States to rush over and defend them unless they are doing their utmost for themselves,"

That is sound advice and a position to which we hope that the senator will adhere when congress is confronted with succeeding requests for [European] [uncertain] aid. We cannot bear the entire burden in man power, weapons or-dollars. The sooner we make that plain inward and deed the better for us [all.—Houston] [uncertain] Chronicle."

It is not the known communists and their followers who present the greatest threat to the United States, It is their dupes, [thosecitizens] [uncertain] who take pride in their alleged capacity to view all sides [ofa] [uncertain] question with the impartial eye of a surgeon while managing to avoid the expression of personal conviction. These [intellectual]] [uncertain] drifters" are a threat to freedom that is difficult to measure, because in many instances their veneer of impartiality hides bitter animosity to the American system. In other words, they do have [convictions—the] [uncertain] wrong kind. And they espouse them subtly in textbooks" on government and
