MARSHALL. MEETS OPPOSITION

Tt ts obvious that Gen. George
Marshall no longer [enn] [uncertain] get
what he wants from congress without
[ques.] [uncertain] ton, Approximately
one third of then voting in both the house
and the sen po [ato] [uncertain] on the

measure which would on- able him to
become secretary of de-

[4 fonso,] [uncertain] by waiving the
ban [agninat] [uncertain] o rot military
man less than 10 years out of uniform,
responded no" when thoth a names wore
called, Only a short while ago that degree
of opposition would

have [beon] [uncertain] unthinkable.
The spoken reluctance to the [walvor]
[uncertain] of the law was based largely
upon an the conviction that a civilian in
fact [ite] [uncertain] should always head
the military [sorvfo] [uncertain] ices in
order to prevent the [perpetui] [uncertain]
action of a military [casto] [uncertain] or
dynasty i There were those, however, who
m criticized General Marshall for [His]
[uncertain] acts

and judgment when he was secretary of
state and for his affiliation with the State
[Department] [uncertain] clique of which
Po Dean Acheson [3] [uncertain] the head.
Poo: Some of these critics went too far,

notably Senator William Jenner of
Indiana, whose vilification of General
Marshall found no support from any
quarter in the senate, There were [4]
[uncertain] others, however, who without
vitu- [4 peration] [uncertain] expressed
their belief that [Z] [uncertain] General
Marshall had shown a weak- [Bp,]
[uncertain] ness or blind spot in his public
acts to which these critics objected. It will
be a new experience for [Be] [uncertain]
General Marshall to have his words se and
deeds placed under a critical and vs even a
political microscope. During the period
that he was chief of staff of the army in
World War II his requests to congress had
almost the effect of law. He was seldom
questioned and had only to state his case
to obtain universal [bipartigan] [uncertain]
support, That is not going to be the case
when he enters the presidents cabinet as
secretary of defense, There [will]]
[uncertain] be those who will want to hold
him to strict accountability. There will be
partisan attacks. There will be, no doubt,
unjustified criticism, General Marshall
will have to learn a new set of rules both
in his relations toward the armed services,
which will view him as a civilian head of
their establishments, and in his contacts
with the legislative branch of the

government, whose members will not be
as eager to follow him [unques-| tioningly]
[uncertain] as they were during the last!

Crockett Courier — September 28, 1950

At this point government plays a critical part by encouraging or discouraging incentive through its tax policies. A man cant pay taxes if he cant make money. If a man cant make money he cannot save or invest.

In the future more than in the past the tax policy of government will determine the availability of investment capital and this in turn will ultimately determine the increase or decrease in Jobs, and taxable assets on which government will have to depend for its tax revenue.

This is a problem involving the future welfare and opportunity of every citizen.
