Judge:

Reforonce is made to your letter of

August 1, relative to highway 164.

I believe that we have previously  
reviewed for you the funds that have been  
[sct] [uncertain] up for the prosecution of  
work on Highway 164 between Groes-  
beck and Crockett consequently, it will  
not be necessary that we repeat this  
information section by section.

As you know, we have the money set  
up and are proceeding with plans and  
securing of right-of-way, which will

complete the route that you have pre-  
[viously] [uncertain] discussed with the  
Highway

Commission of Highway 164 from

NEGRO UNIVERSITY ASKS  
MORE MONEY,

## Crockett Courier — August 24, 1950

The Texas State University for Negroes at Houston is asking the state budget officers for \$10,710,000 for the next biennium, over three times the \$2,934,500 appropriated for the current biennium. Possibly the demand from TSUN is padded a little for hogs swapping purposes. Most similar demands are, Very certainly, the appropriation for the current biennium, la A plus the appropriation of \$1,628,312 for the Prairie View A&M, is far under the needs of the states two institutions for negro higher education. It is not anywhere comparable with appropriations for the state [universities] [uncertain] and colleges for whites,

Statistically, it appears the negroes are on good grounds. Politically, they are on even better grounds. If the legislature sidesteps their demands, they can go right back to the [United] [uncertain] States Supreme court with proof [that.] [uncertain] Texas is not in good faith in [carry-] [uncertain] ing out the courts past rulings [in] [uncertain] favor of segregation on the grounds of equal educational opportunities,

Negroes are divided in their atti- [tude] [uncertain] toward the negro university that has been set up by the state at Houston. Some of them want it to succeed. They want to demonstrate that the negroes, given equal educational

Mr. Truman is gunning for [these]] [uncertain] gentry also, but not with an elephant gun. Three of his proposals will strengthen the existing Inws control- [ling] [uncertain] the snakes in ourAmerican grass,

The fourth and most important may be helpful, but certainly will not cure the condition whose gravity the pres- [ident] [uncertain] himself stresses. This is our lack of adequate means to deal with aliens whose presence we have al- ready held on trial to be either undesirable or downright dangerous,

Harry Bridges, for instance, we have decided to deport, but we have no place to which to deport him, Australia, from whence he came, says definitely he can not return there. And, considering the many years through which Roosevelt liberalism coddled and countenanced his presence here, Australia may well hold that we have some sort of squatter rights to Mr. Bridges.

Mr. Trumans only remedy for this sort of situation is to give the attorney general [gppervisory] [uncertain] power and require the alien to report periodically.
