another nation would eerily be added to
those within the Kremhns sphere of
influence. Hf that view is correct, the
Russians could not.have been more:

wrong. J

The other view is grim. It is that.

[RusKin] [uncertain] anticipated in
advance what, we would do, and that it
[wut] [uncertain] a delib-

rate, Kremlin-conceived trap. We.

would spend our resources in Korea,
while Russia contributed nothing to, the
conflict except some equipment, [und]
[uncertain] top [Jeadership.] [uncertain] In
due time, this view holds, the [sume]
[uncertain] thing will hap-' pen
[elsewhere—in] [uncertain] Iran,
Formosa," perhaps: Europe. The west will

be, forced to spend itself paper thin all,
ground the world. Eventually, it will" te
bled white, and then Russia, with her
strength [unimpusired,] [uncertain] will

FRANCE PRINTS PAPER MONEY. About four [vearr] [uncertain] age France took!

u jot of gold from the Bank of Franec. [(in] [uncertain] return it issued bond to the bank. [The] [uncertain] bonds said that the Republic of France would pas [w=] [uncertain] the Bank of jFrunce sixty-five billion france. The other [duy] [uncertain] France printed [sixty-° (five) [uncertain] billion paper france and [calmly]] [uncertain] handed them to the Bank of [France—'] [uncertain] taking up the interest-bearing bonds. Now the bank will have the paper money in place of the gold" that it used to have. [Thir] [uncertain] is how the deal was figured out. When the gold was bought, a French franc was worth 119 to dollar and dollar was worth one [thirtyfifth] [uncertain] of e [trov] [uncertain] ounce of gold. But now france is worth 835 to the dol- lar, That means that four Fears [ago] [uncertain] Ro took 4.165 [franes] [uncertain] to equal an ounce of gold now it takes 11,725 francs to equal the value of an ounce of gold.

The [reusoning] [uncertain] is that France bought the ounce for 4,165 france

and: [cas] [uncertain] sell kh now for 11,725; therefore there is eg profit of 7,560 francs for every ounce of guide in the vaults of the republic. Multiply [thet] [uncertain] by the number of ounces in nearly five hundred tans of gold, and it runs mighty high, So France printed that amount of [peper] [uncertain] money, [prid] [uncertain] off a lot of [debts—and] [uncertain] kept the gold.

There are people in this country who want the United States Treasury Department to do it that way over here print the paper money and call in the [bonds—and] [uncertain] keeps the gold. They call it profit" like the French do. Buta [Het] [uncertain] careful thinking will remind you that the people who had the gold wind up with paper and the government. Washington, August [12.—You]
[uncertain] are getting ready to"
[surrender—with] [uncertain] or without a
[struggle—a] [uncertain] large measure of
your economic freedom.

Whether you ever get back all you are
about to give up depends on the outcome,
not of the Korean fighting alone, but of a
struggle infinitely greater and infinitely
longer.

Regardless of what kind of a bill
congress passes to implement [national}]
[uncertain] defense production, regardless
of what kind of a tax bill may be turned
out, you are getting ready to surrender a
part of the standard of living you have
known since 1947.

You are getting ready.to give up some
of the freedom to buy what you

If wages [nre] [uncertain] frozen and taxes are raised, you will have less money to keep yourself and your family going, legs to save, less to invest for [Jerenter] [uncertain] returns Jater.

In a system like this, with the Rove [ernment] [uncertain] petting first call on your income, on your raw materials, on your goods, your freedom of [cconomie] [uncertain] choice is limited materially. It might be pretty well obliterated in some instane-

But [cconomie] [uncertain] limitations are not all. The government also pets first call on manpower,

It means the government may [call]] [uncertain] you directly into national service, limit your freedom of job choice, limit your freedom to hire men of talent needed more vitally in other productive activities y

This is [mobilization—partial] [uncertain] or total of economic strength, of financial strength, of physical strength as well as of mental strength and capacity.

But mobilization does not mean limitation, per se. It means a marshal- ing of resources, The limitations come!

when the marshaling must be speeded.

Austin, August [12.—There] [uncertain] is now more than one automobile for every three persons in Texas.

The State Highway Commission announced registrations at 2,700,000 for this year so far have exceeded those for 1949. The total is expected to reach 3,000,000.

String all those cars together bumper to bumper and they would stretch out for 10,000 miles. State Highway Engineer D. C. Greer, figuring it another way, said they would completely fill a 12-lane super highway from El Paso to Galveston.

The installment plan is the only method so far discovered that will induce some people to do things on time.

SPARKLING GREEN RUBBING ALCOHOL

College girls packing their trunks this fall are including a new item named Lanolave. It cant bq called an extra," as it actually takes the place of several old stand-bys. Its a very special, sparkling green rubbing alcohol compound in a handsome bottle that will make an [important]] [uncertain] addition to any dressing table.

Of course, rubbing alcohol has always been a necessity in everybody medicine chest, whether at home or at school. However, Lanolave is not just a superior alcohol it has been blended with generous proportions of lanolin and wintergreen. It is, therefore, never drying and harsh-smelling as ordinary alcohol [has.a_] [uncertain] tendency to be, but actually softening and fragrant.

Lanolave makes the most luxurious after-bath lotion imaginable. It leaves the skin feeling smooth as silk, and the well-known antiseptic properties of alcohol help dry up small externally-caused pimples. Applied with fresh cotton in the morning, it makes a wonderful skin freshener, leaving the skin glowing, smooth and ready for makeup.

Death and taxes are certain but you feel the effect of death only once.

[T] [uncertain] hy any that siting [vidinye] [uncertain] i in [1 ntitomobiles] [uncertain] has [brondened] [uncertain] men not so much their capacity to think, but has widened their capacity to sit. Tf he walked down the side of the read, he would have to pull in" to keep his side from being peeled off." But

no man sits too wide for political office. The wider he sits the more of his district he covers, Men in congress are having more trouble in getting up and out of chairs than formerly. They like so well to sit in even tight chairs that they dislike to give them up. They seam to be sitting high and wide, but not handsome, just too wide for looks, and comfort. But don't [worry— theyre] [uncertain] all round fellows.
