[uncertain] might best meet the [vituatene]
[uncertain] now confronting us. But dots
anyone really think Truman would not use
this flexibility a of authority to play
politics? The oe Republicans and
conservative Democrats are on pretty safe
grounds in by their assumption, if
Trumans past f record means anything.
And the play- [Pot] [uncertain] ing of
politics with controls under

our present strained [economic]
[uncertain] situation would be disastrous.
The influence of pressure-group politics
during the [impotjtione] [uncertain] of
controls for World War H was partly
responsible for our present inflation mo
Congress should consider the [possiot
bilty] [uncertain] of a middle-way course.
It may be possible wo set up the various
types of controls in groups that are
[inter-] [uncertain] locking in economic

any [one] [uncertain] interlocking group
into effect [simul-}] [uncertain] i
[taneously.] [uncertain] For example,
controls should not be applied to steel
without application of both price and
wage controls in this industry. If such a
compromise course is not possible, then
congress should give the presi- dent only
the alternative of imposing re complete
control or none. With greatly inflated
prices and an enormous national debt, we
are already in a bad economic situation for
fighting a war. We [wilFYse] [uncertain]

Summer school at the Texas State
University for Negroes at Houston has
2,185 students. Of the 1,152 male, 860
[ure] [uncertain] veterans. There are three
ex-service women out of the 1,003
students on the distaff side. The graduate
school section includes 741 students.
Extension schools of the university are
located at Dallas, Waco and Ellington
Base [(Houston).] [uncertain] There are
forty-three enrolled in the pharmacy
school. The showing is highly creditable.
It demonstrates that the demand for higher
[cducation] [uncertain] is present among
the negroes of Texas to an extent not
appreciated by the general public. It also
means that the Texas

State University for Negroes is meeting
that demand in surprising and satisfactory
fashion. It is but a question of time [until]
[uncertain] there will be [fiye] [uncertain]
to ten [thousand] [uncertain] students on
the campus at Houston. Talk, of reducing
such an institution to junior college
proportions will have to be reconsidered.

This fact is emphasized by the [note].] [uncertain]

which Great Britain has just [made]] [uncertain] public answering the United States" question as to the nature and extent of the increased military effort which the British were prepared to make.

The cursory reading of the dis- patches create the impression that the

British are ready to launch a \$9,000,-

000,000 three-year program, providing of course that we will help them out with the financing.

Actually what the British note means is that they are prepared to expand their military strength by

[illegible or non-text passage omitted — see scan]

years if we will foot the bill. The

British are already spending [about]] [uncertain]

\$2,000,000,000 annually on national [de-= fense.] [uncertain] They are prepared to increase this amount with our aid to \$3,000,-

000,000.

In all fairness it should be pointed out that if the British enlarge defense production there will be some [yesulting] [uncertain] stringency in the goods and services available for civilian consumption,

The cost, however, is already taken care of. President Truman has proposed that \$4,000,000,000 be voted this year for the military assistance program. More than the amount which Britain says-she is prepared to spend on expanded military defenses no doubt will be allotted to England. We want the additional strength

which the British can provide, There is no question about that nor is there any question that we will have to pay the [bill~Houston] [uncertain] Chronicle.

Thene sources further [bollave] [uncertain] that [Ruane] [uncertain] many be producing atom bomb aL the rate of one or [4] [uncertain] per month,

Thin belief In based partly on dn. [tollience] [uncertain] report rene [hktiye] [uncertain] the Wontorn governments from [varloun] [uncertain] sourest,

It iy also [baned] [uncertain] on the [ealeulations] [uncertain] of Allantle Pact milliary [atratesinty] [uncertain] jn the light of the [neereta] [uncertain] which [Rua nin] [uncertain] is lawn to have received) [from]] [uncertain] such [oaplen] [uncertain] an [Drs Kline Mucha,] [uncertain] the [German-born toperankings Rritinh} nefontint,] [uncertain]

Internationnl News [Service] [uncertain] learned [(hat.) [uncertain] the [exthiate] [uncertain] that Russin has

about 20 atom bombs [aad] [uncertain] is [produebag] [uncertain] them at the rate of one oar 1h per [amonthy] [uncertain] draw been under serous consideration by the Wester mem- hers of the United Nations military [conmmnittee, The] [uncertain] number of atom bombs [whieh Rustin] [uncertain] may have is considered by [Kuropenn] [uncertain] military and diplomatic leaders to be one of the most [vitallydpa] [uncertain] rt [sys Hoa.] [uncertain] cop teen [Nags biaC-] [uncertain] [ealern] [uncertain] world,

Ht in [folt] [uncertain] that the fate of the world nine depend on the answer to this question,

Western [Mutopean] [uncertain] military experts doubt that the Soviet government would be prepared to risk war with tho West if Russia did not have a substantial stock pile of atom bombs.

These experts fear, however, that if and when Russia has a stock pile of 80 to 100 atom bombs, the Soviet leaders might be prepared to risk a conflict, especially if they felt that war was inevitable and time was no longer on their side.
