WEEKLY PUBLISHER HIS OWN WORST ENEMY?"

Often we hear it said, The average
weekly publisher is his own worst
Jenemy." Usually the statement is made
by someone in the agency or
representative business. Today we have
the same word from Robert I.

Bray, publisher of the Br [ady (Tex.)]
[uncertain]

Herald.

Mr. Brady has written a pointed essay
on the subject from which we quote after
noting his observation that

some publishers may never change
their ways but perhaps some will [sce]
[uncertain] the light so that those who try
to operate their weeklies efficiently will
not be placed in jeopardy."

The Texan cites Bruce Barton as one of
the authorities who declares,

There is no better advertising medi- um
than the weekly newspaper ad-
[vertising."] [uncertain] Executives and

sales man- [agers] [uncertain] are
becoming more and more convinced of
the wisdom and truth of this statement.

But," Mr. Bray continues, the average
weekly publisher becomes his own worst
enemy. By failure to read and follow clear
instructions on insertion orders, by delay
in billing and furnishing [tearsheets,]
[uncertain] by permitting slipshod printing
and by his general inefficiency, he has not
only jeopardized his best source of
revenue, but he has called two strikes on
other weekly publishers who are handling
their national advertising in a
business-like manner.

CITATION BY PUBLICATION.

THE STATE OF TEXAS TO: Willie
Baltzare, GREETING:

You are commanded to appear [and]]
[uncertain] answer the plaintiffs petition at
or before 10 clock A. M of the first
[Monday_after] [uncertain] the expiration
of [42]] [uncertain] days from" the date of
issuance of this Citation, the same being.
Monday the 24th day of July, A. D.,-1950,
at or before 10 [oclock] [uncertain] A. M.
before the Honorable District Court of
Houston County, at the Court House in
Crockett, Texas.

Said plaintiffs petition was filed on the
9th day of August, 1949. The file number
of said suit being No. 12,608,

The names of the parties in said suit
are: Mary Etta Baltzare as Plaintiff, and
Willie Baltzare as Defendant, The nature
of said suit being substantially as follows,
to wit: Suit for Divorce.

2 CRIMSON [CLOVER"] [uncertain] COMING TO EAST TEXAS

[Ny] [uncertain] Bob Gray, [Special]
[uncertain] Writer, in Howton
[Chronicle,] [uncertain]

[Unless youre] [uncertain] a farmer, a
rancher, or [verted] [uncertain] in the art
of prowl pit turns, you've probably never
heard of crimson clover,

But [aeroas] [uncertain] the hull of
[Kant Vexnn,] [uncertain] in an are bigger
than the ante of

Pennoylvania, the tall and fuzzy heads
of [erlmson] [uncertain] clover may one
day mean added health for Texan
[liventoch,] [uncertain] ndd- ed wealth for

Texan Fanchern, and some firnt-rate
scenery for [cillzenn] [uncertain] who
aren't [aceuntomed] [uncertain] to a
tochnl- colored pasture,

This will come about df the current
experiment of the Hounton Farm and
Ranch Olab pans out am expected, And
during the recent spring, officials of that
[club—as] [uncertain] well an of tho
[Houston] [uncertain]

Chamber of [Commeree---have]
[uncertain] kept anxious eyes on the 48
[Fant] [uncertain] Texat counties where
260 farmers and ranch- men [pinted]
[uncertain] 66,000 pounds of the ver-
[satilo] [uncertain] clover that hails from
Alabama,

The [Houston exparlmentern]
[uncertain] have liked what they've seen,

[Crimson] [uncertain] clover was
brought to Tex- as for A-couple of
reasons, but mostly [becauno] [uncertain]
it can give Texng, yest

[illegible or non-text passage omitted —
see scan]

[ter] [uncertain] grazing, [From]
[uncertain] late fall until
[April-the-erney, Herefords; AnPUn]
[uncertain] and Brahman cattle of the state
have heretofore dined on an indoor feed
menu, making w half-hearted attempt [to'
munceli] [uncertain] what leftover clover
they might scrounge from barren outdoor
pastures.

But nv year ago Houston livest6ck and
farming enthusiasts took a trip to Alabama
to see what [theyd] [uncertain] heard tales
about: A clover, almost red in full bloom,
that can delight the palate of any bovine
citizen for nearly four months of a
Southern winter,

Sure enough, the tales [werent ex»]
[uncertain] [aggerated,] [uncertain] the
Texans decided. So in September of 1949,
250 clover-con- [sciuous] [uncertain]
cattlemen [secded] [uncertain] nearly
2800 notes of South and East Texas pas-
[ture] [uncertain] in crimson clover.

In March of this year 400 people
gathered at the Montgomery county ranch
of Oilman-Rancher Cliff Ram- py. County
agents, vocational farm instructors, Farm
and Ranch Club members they were, all
come to see an average example of the

experiments results,

They found 120 acres of lush green
pastures, just beginning to acquire a
crimson headdress. Since December,
Ramp said, [hed] [uncertain] been grazing
three to four cattle per acre and his
Aberdeen-Angus stock [didnt] [uncertain]
appear to have" made a dent in" the
[foot-high]] [uncertain] foliage.

During that time Rampy and the others
who had grown the new plant learned
plenty about the clovers weaknesses and
strong points. They proved that it loves
well-drained, sandy loam soil that it needs
fertilizer for maximum growth, and that it
can be choked out" by native Texas burr
clover. But the East Texas land, from
Harvis county more than 200 miles north
to the Red River, met the basic re-
[quirements,] [uncertain] it appeared, and
the crim- son clover was right at home.
After looking at the pastures of Rampy
and others, the people who started the
[experiment—people] [uncertain] like Bill
Cox of the [Touston"] [uncertain]
Chamber of Commerce agriculture
[department—] [uncertain] concluded that
future winters might see perhaps
7,000,000 acres of Texas farm land
blanketed in crimson blooms. Fifty-nine
Texas counties, says Cox, lie within the
30,000,000-acre belt of East Texas real
estate where this unique clover thrives.
And one quarter of that is pasture land.
This clover is called unique [be-]
[uncertain] cause it can do things many
[money}.] [uncertain] crops cant do," Cox
explains.

It reseeds [itseif] [uncertain] from year
to [year;] [uncertain] it can be planted
along with other summeg-blooming
clovers it [extracts]] [uncertain] from the
air and stores its own [vital].] [uncertain]
supply of nitrogen it reaches deep! [oto]
[uncertain] the earth to break up stubborn
oils, and even after grazing it [pro-}]
[uncertain] dudes a heavy crop of seed
that [can}.] [uncertain] be sold at a tidy
profit.

Because of these main [character-/
istics—winter] [uncertain] grazing, soil
building, and seed [resale—Alabama]
[uncertain] ranchers have managed to turn
[wornout cotton]] [uncertain] land into
fertile cattle" grazing [land].] [uncertain]

ISURVEY REVEALS BUSINESS TAXES FALL ON PUBLIC

The influence of taxes on the Amer-jean family will he [uppermont] [uncertain] in the minds of members of congress for tho next few weeks. They are seeking the answer to thin \$64 quotation: [Jfow] [uncertain] can they [sathify] [uncertain] increasing public demands for tax reduction and at the [sume] [uncertain] time find other taxes to offset such a reduction? hold prob- [Jlem] [uncertain] is made doubly Rard by the [fnet] [uncertain] that Unclo Sam wants to spend 5% [(billlon aboveuhlexinne:] [uncertain] next [yaorc:] [uncertain] 1" The Council of State Chambers of

Commerce today pointed up the prob-

[illegible or non-text passage omitted — see scan]

[ington] [uncertain] research staff. It found that the \$40% billion in all taxes collected by the Federal government Inst year came from these sources: 4414 per cent from personal income taxes, 28% per cent from corporation income taxes, 6 per cent from social security tax eg and the balance of 21 per cent from a great variety of excise and miscellaneous taxes,

A tax study issued this month by the Brookings Institution, an impartial research organization, revealed that three fifths of all manufacturing corporations take the corporate income tax [jnto] [uncertain] account in determining the prices of their products. This means that the consumer pays a large part of corporation taxes, too.

Ernest Breech, executive vice president of the Ford Motor Co. in reply to a question whether the price of cars would go down if his [companys] [uncertain] taxes were cut, said:

Certainly it would cut" prices, In the long run, every corporation must price its products so as to make a reasonable return after taxes in order to survive and grow. In the final analysis, income taxes are just as much a cost of doing business as payroll," [A-...group—of—congressmen,—doing] [uncertain] some rough figuring on their own recently, [copicluded] [uncertain] that a family of three [presons] [uncertain] with an income of \$3,000 pays \$201.60 of that income in corporation income taxes which are included in the prices of the" things they buy. A family of four with an income of \$5,000 pays \$316.80, and the same sized family with an income of \$7,500 pays \$414,

NEW ALL-PURPOSE CARS OFFERED BY CHRYSLER

Eight new all-purpose cars are now being offered by Chrysler corporation.

In addition to the forty-four models in the regular lines of sedans, coupes, limousines and convertibles, Chrysler corporation has designed eight [allpurpose"] [uncertain] cars from the lowest priced to the most luxurious.

In the Plymouth line there is a new suburban for business or pleasure, an all-metal family car with the comfort [ofn] [uncertain] sedan and the carrying capacity of a station wagon. There are 42 inches of luggage space behind the rear seat, or when it is folded down there is cargo space 68 inches long, 55 inches wide and 39 inches high. There is also a new Plymouth Station Wagon which carries folding auxiliary center seats for easy access to the rear. It is quiet, sturdy, and has more than 100 cubic feet of capacity.

In the Dodge line there is a new Station Wagon with plenty of room for six passengers and big utility space. It is built to stay quiet [and:] [uncertain] ship-shape, with the tail gate opening level with the floor. Equipped with fluid drive and [gyromatic] [uncertain] transmission, no shifting is necessary,

Only as a signal of-distress may the American flag be- flown upside down.

Crockett Courier — June 22, 1950

Improvements, he said, Your line canting machines should be opt clean the space bands cleaned ac- cording to manufacturers" reconymen- [dationn;] [uncertain] the mats in the [plo] [uncertain] tray dis- [tributed] [uncertain] in the magazine before the [Jmagazine] [uncertain] in changed the metal kept [yat] [uncertain] the proper temperature, [Your Ymiake-up] [uncertain] and [ImponIng] [uncertain] tables should be so positioned as to [ive] [uncertain] your com- positron easy [aceens] [uncertain] to the saw and spacing material cabinets or anything else he may need to do his work. [1] [uncertain] Time and material are your big- [Jeest] [uncertain] costs, In publishing a nowspa- per, you will spend \$100,000 for time and material before you pay for uy 826,000 newspaper [PMHEe Stappenbaeck] [uncertain] estimated that about [7b] [uncertain] per cent of [all_sttcher] [uncertain] trouble [is,] [uncertain]

caused by [dixt,] [uncertain] A pan of gasoline and a paint brush will take care of most of your stitcher troubles. I would suggest you get a atrip [of,] [uncertain] canvas, sew up the sides and make a sack to put on your stitcher when hot in use," he said,

The four fundamentals of presswork should surely be standard [prac-] [uncertain] time. Tho bearers should be kept clean and the cylinder bearers must ride the bed bearers. The packing should be tight and free of wrinkles. The form should be [seraped] [uncertain] on the back, well planed and not locked too tight.

All cuts should be type-highed [before}] [uncertain] being put in the form.

The rollers should be clean [and,] [uncertain]

set properly with a 918 type-hi block.

The block should be pushed back and forth under the roller until the [roller:}] [uncertain]

turns free raise the roller until it!

[doesnt] [uncertain] touch the block, then lower

until it turns the roller. The com- position roller should be pushed against the steel vibrator roller tight enough so

you cannot turn the com- position roller by hand. There must be no slippage.

Rollers must be washed with kero-

Bene [ofl—dp] [uncertain] not use gasoline," [he}] [uncertain] continued. If type cleaner is used to remove dry ink, kerosene should be used to remove the cleaner, I [would,] [uncertain]

Suggest you stand your form [rollers] [uncertain] on end after you finish the run, espe- [cially] [uncertain] if they have become soft in warm weather. Turn them end for end about every half hour until they have cooled and gone back to their normal state.

Tf rollers are allowed to stay in the press to cool after they have be- come soft, they will cool lopsided.

Roller manufacturers stand rollers on end while they season. After the run has been finished, it is not necessary to wash your rollers until you are ready for the next weeks run. This, of course, should be done only if [you] [uncertain] are using news ink. News inf will protect your rollers over the week-

[illegible or non-text passage omitted — see scan]

Platen presses should not be run so fast as to make the rollers, jump when they come off the plate and onto the form. Saddle springs, of course, get [weak—and] [uncertain] running the press too fast will make the rollers jump, damaging the roller tracks. The tracks [shouldbe] [uncertain] kept clean and dry.

The lock on a platen press is the part which takes-the impression. The spring should be strong enough to hold the lock in, while printing. [The,] [uncertain]

points of contact, when the lock is doing its job, should be kept clean and dry. This lock is located under the delivery board just below the main shaft," Stappenback explained. 4

Printing machinery should be [oiled:] [uncertain] just before put into operation. If it is oiled and permitted to stand any length of time, [theoil] [uncertain] will run out of the bearings. The best oil to use is industrial oil sold by all large companies. The cost is about 89 cents per gallon, Do not use automobile oil fat 40 cents per

quart. By all [meang,] [uncertain] use [oil—and] [uncertain] in the bearings."

STRONG NAMED PRESIDENT OF TEXAS CITY BANK

[Texas] [uncertain] City, June [13.—Directors] [uncertain] of the First State Bank of Texas City elected Wilbur Strong president [ata] [uncertain]

meeting Tuesday.

Mr. Strong, a vice president" of the bank four years, succeeds. Henry Franks, who resigned [becom Bees ident] [uncertain] of a new bank: [Conte He] [uncertain] holds a degree of business [adminis.] [uncertain] ration from the University of [Texas] [uncertain] and is a native of Texas City. Haskell Contrell, [cashfer,] [uncertain] was named vice president and will continue as cashier, Dee Walker, chairman of the board, said. No new directors [were]] [uncertain] t

DR. COX SAYS DIABETES NEEDS EARLY TREATMENT

[(inbeten) [uncertain] in three dime an high tn [dinbotlen] [uncertain] whose condition wan not din covered until after complications developed than for, patients whose [SIL] [uncertain] ness wan recognized and brought [wnday] [uncertain] treatment before advanced [aymptama] [uncertain] appeared,

[Based] [uncertain] on recently completed national studies, thin was revealed Thursday hy State Health Officer Geo. W. Cox.

[Miabetet] [uncertain] han not always [beeh N] [uncertain] public health problem," the health officer declared. It [heeam] [uncertain] one when wo found that the death cate in melt greater when tho condition da dis covered late:

[Public] [uncertain] education makes for lower diabetes death rater, and public education in much matters ta health department job."

Dr. Cox told thin [atory] [uncertain] about [diabetos:] [uncertain]

It used to be that) many [dinbatle] [uncertain] patients nought [trentmant] [uncertain] only after having developed
