whose duty

it is to enforce many of these [laws,!]
[uncertain] and who can therefore be
regarded as one of the nations outstanding
authorities on the subject.

He says: American business is be- ing
harassed, bled and even black- jacked
under 9 preposterous [crazyquilt]
[uncertain] system of laws, many of which

are un- intelligible, unenforceable and
unfair.

There is such a welter of laws gov-
[erning] [uncertain] interstate commerce
that the government literally can find
some charge to bring against any concern
it chooses to prosecute. I say that this
system is an outrage, and that its time the
government did some- thing sensible
about bringing its own operations up to
the same standard of ethics that it expects
of business."

We must put an end to the orgy of
spending that is rapidly bankrupt- ing the
nation. [Among.] [uncertain] the most
critical conditions that menace us [are:]]

TOO YOUNG OR TOO OLD.

Things have been pretty tough for those
of us who are neither too young nor too
old. But the government [is}] [uncertain]
going to take care of that, too.

The government already has a [pro-]

are too old to work, It is already plan-
[ning] [uncertain] great things if you are

grounds, with even" a little education
thrown in. Now it seems the folks in the
middle [arent] [uncertain] going to be for-
gotten either.

The word from Washington is that the
welfare state planners are plan- [ning]
[uncertain] some welfare for the middle
aged," while the government rather
gratuitously defines as beginning at age 45
and running until [yotrare] [uncertain] old

enough to get old-age benefits. The details
[havent] [uncertain] been worked out, and
so the handouts are not yet at hand.

But at least the government has work-
ed up to the plight of some of the people
who have [0] [uncertain] support the old-
[ageand] [uncertain] youth-age programs.

Labor department officials worry
because the middle-aged are usually the
very people who support both children
and parents, personally nd by taxes. If

The theory of economic planning which Stuart Chane, George Soule and [otbors.,] [uncertain] dad beau preaching for years, rose into respectability. This philosophy, newly equipped with glorious spending theories and magical proposals for [practleally] [uncertain] endless government borrowing, brought" the school of planning into official favor.

The first [attompl] [uncertain] to provide this idea with an" organized [propnganda] [uncertain] machine was the formation of the CIO Political, Action Committee by labor leader Sidney Hillman in the 1944 presidential campaign, John tf. Flynn.

SOCIALISTIC PLANNING,

MORE HOLIDAYS AND LESS WORK IS OUR SLOGAN.

The chamber of commerce has sent out questionnaires to ascertain how many holidays Crockett wants during the coming year. The Courier editor j regrets that he is unable to say for j himself. Inasmuch as he draws no y salary, but has salaries to pay, he may not be able to take many holi- days. However, this editor likes Sun- days and holidays, and will take all the holidays that he thinks he and his creditors are nble-to survive. He thinks

there should be more holidays, so if you cant grab off one of them, there will be others to stab at. When this editor was a younger boy, he got a job breaking rock for the construction of a new jail. In the old jail adjoining, a big burly, black negro was continually singing I Wish Every Day Was Sunday." Why the negro in jail was hollering for more holidays than he had,we [couldnt] [uncertain] understand. He was underprivileged [in] [uncertain] that he could not get" out and work, but was still hollering for more holidays, Not having to get out and work, he had reached the pinnacle of the more abundant life." [Physically] [uncertain] able to work, he seemed to already have too many-holidays. Here was a person with many holidays on his [hands]] [uncertain] and singing for more. Life is [so]] [uncertain] short and passing so rapidly that it seemed he ought to want to have his freedom and a chance to do [somethin] [uncertain] for himself, his family and his country. Give us freedom and [opportunity—freedom] [uncertain] and opportunity to properly use, in cur own wisdom [and].] [uncertain] judgment, all the Sundays, [holidays].] [uncertain] and other days that we are [blessed]] [uncertain] with, in order that we may put [them].] [uncertain] all to proper and good use. MOST UNSOUND BOOM IN HISTORY

Atlantic City, N. J. June [6—The] [uncertain] president of the Southern California Edison Company said Tuesday the country is in the most dangerous and unsound boom in its history."

W.C. Mullendore called it a phoney prosperity" that becomes more dangerous as it continues.

It is financed," he" said, by unsound expansion of government debt, government guarantee of unsound private loans, by legal counterfeiting and by confiscation of the savings of thrifty people through inflation."

He launched a sharp attack upon public power and the" government at the second session of the Edison Electric Institutes eighteenth annual meeting,
