TEN COUNTIES SHOWING LOSS IN POPULATION

Nacogdoches, May 23. Ten of the 12 counties in the Seventh Congressional district appear to have lost population since 1940.

But larger cities and county seats in the Central East Texas district almost invariably gained population.

Trifling figures released Tuesday by District Census Supervisor J. H. Rousemore were the first in Texas for an entire congressional district.

They confirmed a trend shown in earlier, scattered census results: A marked shift of population from rural to urban areas and away from less populous counties.

Houston, which is the county seat of Harris county, was the only county in the district to show a gain in population.

Helpful at Home.

Friend Millard said that he always tried to be helpful at home, which caused Mrs. Millard to comment on his helpfulness by relating how he got on it for a free ride when she was moving a bed from one side of the room to the other side. As proof that he was really helpful he said that he did the milking Saturday morning. Mrs. Millard admitted that she watched him pull the calf away from the house with an empty bucket and declaring that the calf got the milk.

Wildcat Seen Staked.

Locations for two test oil wells were staked west of town Tuesday. One site is on the Hill Huff farm and the other is on the Bush Sheridan farm. The Hill Huff location is on a 103 acre tract in Greenwood Survey, the Sheridan is on a 700 acre tract in Buffalo Survey.

The wells are in wildcat territory, being about midway between the Grapeland field and Humble field. Drilling is scheduled to get underway in thirty days.

Billy Farr has contracted to drill the wells for Stansfield, Shelly, Boyd, Ford and others. Grapeland Messenger.

Alaska Fund Extended.

Washington, May 19.—The house appropriations committee approved Friday a request by army engineers to extend for another year the availability of \$3,700,000 appropriated last year for use in Alaska.

The first shot in the Civil War was fired at Fort Sumter.

Here are census figures announced by listing 1940 population first, tentative 1950 figures second:

Nacogdoches county 35,302 and 35,201, indicated 1950 loss; city of Nacogdoches 7538 and 12,213, indicated 4675 gain.

Chester county 43,970 and 39,000, indicated 4970 loss; Jacksonville 7212 and 8922, indicated 1710 gain; Rusk 5021 and 7021, indicated 1222 gain.

Anderson county 37,002 and 33,102, indicated 3900 loss; Palestine 12,414 and 12,400, indicated 250 gain.

Here are census figures announced by listing 1940 population first, tentative 1950 figures second:

Henderson county 21,325 and 20,000, indicated 1325 loss; Athens 4705 and 5302, indicated 597 gain.

Trinity county 13,705 and 10,008, indicated 3697 loss; Trinity 2217 and 12,212, indicated 1005 loss; Groves 940 and 903, indicated 37 gain.

San Jacinto county 9010 and 9000, indicated 10 loss; Colquhoun 600 and 600, indicated 200 gain.

Polk county 25,635 and 16,982, indicated 8653 loss; Livingston 1851 and 2822, indicated 971 gain.

Madison county 12,029 and 10,008, indicated 2021 loss; Madisonville 2095 and 3024, indicated 929 gain.

Grimes county 21,960 and 17,201, indicated 4759 loss; Navasota 6138 and 6002, indicated 136 loss.

Houston county 31,137 and 25,000, indicated 6137 loss; Crockett 4538 and 5021, indicated 483 gain.

Walker county 19,868 and 21,001, indicated 1132 gain; Huntsville 5108 and 5021, indicated 87 gain.

Montgomery county 23,035 and 25,000, indicated 1965 gain; Conroe 4624 and 6001, indicated 1377 gain.

The tentative figures will give the district a population of 228,402 compared with 229,721 in 1940—a loss of 1,319.

Rousemore said he did not think final figures will show a significant increase over the tentative figures.

"It's clear what's happening here," he said. "Tenant farmers are leaving the rural areas. It's not only labor-saving farm mechanization and the fact that small farms have been combined into big ones, thus saving labor, but many are leaving for employment in other places as Dallas and Houston."

Rousemore said government curtailment of cotton planting also is a factor.
