**UNION PROTESTS
MARTIN DIES AS
SCHOOL SPEAKER**

Houston Chronicle.

Oil Workers International Union, C. I. O., Local 367, has sent nearly 500 letters to Pasadena school officials protesting the selection of former Congressman Martin Dies as the speaker for commencement exercises there.

"The union objects to Mr. Dies as the speaker on the grounds that he was an enemy of organized labor," said George Casler, former president of the union, said.

A "minor correction," he added, "was that we regarded Dies as a Republican in view, although he claims to be a Democrat."

The letters were sent to school board members, School Superintendent V. W. Miller and the Pasadena Classroom Teachers Association. They were signed by Q. L. Black, president of the union local, and Mr. Casler.

Mr. Casler said the action was voted at a meeting of the union last week.

A. W. Calhoun, president of the school board, said "the matter could" come up at the next regular board meeting May 18. Graduation exercises are slated for May 31.

"As chairman of the board, I do not expect to offer any advice or make any suggestion," he said. "The board members are not for doing their own thinking and making their own decisions."

Several members of the Pasadena school board are union members. Mr. Calhoun himself was a charter member of the oil workers union and after being promoted to a supervisory position with the Shell Oil Company retained a life-time honorary membership.

Another school board member, Karl E. Kruse, said that he had heard Martin Dies speak several times, "and I regard him as a good speaker."

"Personally I would prefer him to some person who would talk all day and not say anything," he added.

Other board members were non-committal. Superintendent Miller said that "any action, if taken, will be up to the school board."

**NEEDS OF STATE
SUPPORTED
COLLEGES**

Austin, Texas, May 16. A study of the needs of state-supported colleges in Texas similar to that which led to enactment of laws improving the public school system was called for here today.

"Unless Texas improves the quality of training available to its youth in institutions of higher learning, the high standards established for public schools will be undermined," said Dr.

San Burton of Denton, president of the College Classroom Teachers' Association.

Dr. Burton said his association, which is affiliated with the Texas State Teachers' Association, would soon place results of numerous surveys before the Texas legislative council, a state body charged with making recommendations, after complete investigation of various matters, before the legislature.

You and J,

Mr. Ewing, federal security admin- [istrator,] [uncertain] tours not only this country but Kurope with special attention to the Socialist government of Great

Britain. On his return he did quite a bit of traveling and talking in praise of British socialism and in particular of socialized medicine, which is simply a backhanded way Jof making hay for Mr. Truman and his program. Who paid for it? You and I, And go, on and on it goes, throughout most of the Domocratic office- holders in cabinet and administrative posts.
