PRIVATE OWNERS MAKEUP LOSSES OF GOVERNMENT OWNED

Canada has two big railroad systems, the Canadian National, controlling 24,000 miles, and the Canadian Pacific, controlling 22,000 miles.

The larger system, the Canadian National, is owned and operated by the Canadian government. The latter, the Canadian Pacific, is privately owned and operated.

Both lines operate Atlantic and Pacific coastlines. Both lines at times have had business reverses. When the privately owned system meets with reverses, the government-owned system has reverses. Canadian taxpayers have to make up its losses.

REAL ECONOMY THING DESIRED IN GOVERNMENT

There are many economies that could be inaugurated in Washington.

[Thereare] [uncertain] hinny government employ- [ees] [uncertain] whose services could be easily done without. It is general knowledge that much money is squandered in Washington. Many people are on the government payroll for the only reason that some senator or [congress»] [uncertain] man wanted them placed there. Many political debts are paid in that way.

But there is much opposition to re-

1 [lucing—forces—in—Washington—oppo] [uncertain]

[sition] [uncertain] by those who-secured this unnecessary help its jobs. And no bureau wants to be abolished or have any of its force cut off. The city of Washington itself does not want to lose them. Washington" thrives [becaues] [uncertain] of their presence. It would take many people away from Washington, and the city does" not" want to lose their patronage. [Washingtons] [uncertain] financial position is boosted by them. But the people are petitioning for

But the people are not going to be fooled in all [things=they] [uncertain] may be fooled in some things, but not-in all. They know that reducing the postal service is cutting expenses as far away from Washington as possible [uncertain] and that it is about the smallest economy, they could think of. It will not stop the clamor of the people at home for real economy in the national government.
