[MACARTIVUR] [uncertain] GIVES ADVICE TO JAPAN,

The text of Gen. [Douglas] [uncertain] MacAr- thurs address on the third anniversn- ry of the Japanese constitution amounts to pro-consular advice to out-

Jaw the Communist party in Japan.

But boldly, he says to the new [Japan-] [uncertain]

se democracy: Destroy them before they destroy you. [vad Now,-this-tym ext] [uncertain] from [which] [uncertain] to preach to a democracy [without] [uncertain] some troubling of the mind. It may be judged from the address itself

[that]] [uncertain] the [Keneral] [uncertain] had that. In his difficult i post, he is confronted by two embar- [rassmenta:] [uncertain] Firat, he administers a [de-] [uncertain] [mocracy] [uncertain] in the form of a limited mon- [archy,] [uncertain] which we have ourselves set up and obviously the denial of po- [litical] [uncertain] rights to any way of thinking a not a concept of democracy. Second, he advises the new Japan to take a step which the United States itself has not taken. The general took both of those hurdles in stride and gave the advice just the same.

Difficult as it is for republican ideal ism to accept, the advice is good. In time we may come to wish that we had had more honest and more practical politicians to insist upon the same course for this country at the time when those whom Mrs, Eleanor Roosevelt used to refer to as our [rulers"] [uncertain] were warming the Red serpent in [our—bosom:—Itis—adviee—that couldbe] [uncertain] followed here with results [more] [uncertain] beneficent that evil now.

General MacArthur and the nation he is guiding in its new ways happen to be closer to the point of contact. There is nothing academic about the Communist problem in [Asia..] [uncertain] It is not yet acute in Japan, but it can become so. It is not too much to say that it will become so unless the snake is scotched [now.—Dallas] [uncertain] News.

[Econoniists] [uncertain] generally agree that [25]— [uncertain] per cent of the national income for the cost of government is about the maximum that a system of free enterprise can pay. That percentage was passed in 1946 [(when govern-—] [uncertain] mental costs reached 27.4 per cent of national income), and has continued to exceed 25 per cent since.

Phe figures shown in the report are alarming. They indicate a reckless [lisregard] [uncertain] for what is to happen to he nation and to the next genera- ions of Americans [(our] [uncertain] own [descendints]) [uncertain] in the future. At the rate we ire going, it is probable that we [ourelves] [uncertain]
