This matter comes home to every one who uses our [highways—or,] [uncertain] through taxes, helps pay for them. The heavy-truck problem hag reached the critical stage. As an example, the chief engineer of [Oregons"] [uncertain] highway commission has recommended that the state reduce its construction of new highways by half. This is be- use the cost of repairing and strengthening existing highways is putting deeper and deeper into [availble] [uncertain] funds. Tyler, April [14.—Governor] [uncertain] Allan

Shivers said Friday too many people and [groupswant] [uncertain] government ccono- my in [general—but] [uncertain] not economy that [hurtsthemspccificalty.] [uncertain]

The governor told the silver anni- [versary] [uncertain] convention of the East Texas Chamber of Commerce:

I have seen organizations such as this one, and the individual members thereof, pass resolutions and send telegrams to the legislature urging greater [economy—cut]

[uncertain] out unnecessary spending, they [say—derail] [uncertain] the gravy train, get out the blue pencil.

Within the same week or month, these same legislators may receive telegrams from these same organizations and individuals, urging them to vote for an expressway, or dam, or a school, or a tax remission bill that will directly benefit one particular locality.

Tam not hopeful of reforming human nature and chamber of commerce psychology to the extent that such paradoxical practices will- cease. I am afraid a lot of people will continue to be for economy generally and for spending specifically, I guess we will continue to Want our road [built—and] [uncertain] to cut out the other fellows."

COTTON CLASSING AND MARKET NEWS. SERVICES HERE

Details of the 1950 Smith Doxey classing program for cotton farmers were announced by John W. Doremus, in charge of the [Austin.] [uncertain] office of the cotton branch, Production and [Mar-] [uncertain] [keting] [uncertain] Administration, U.S. Depart- [ment] [uncertain] of Agriculture.

Farmers will follow the same procedures as they did last year in signing up for this program," Doremus said. Under it, he continued, they receive without cost cotton classing and market news from U. S. [Department] [uncertain] of Agriculture. Any group [of] [uncertain] farmers organized to" promote the improvement of cotton is eligible [for]] [uncertain] these services.

Doremus urges all cotton farmers interested in Smith-Doxey benefits to organize community groups [immedi-: ately] [uncertain] and submit applications, [Ap-lications] [uncertain] and more details about the program can be secured from county agricultural agents, county PMA of- ices and [ginners,] [uncertain] or by writing to föhn W. PERMANENT SCHOOL FUND AIDED

Auntin, [April" 8.] [uncertain] The two
[pernianent] [uncertain] school funds of
Texan panned the [1.\$250,000,000,]
[uncertain] during, the [moxth.of-April,]
[uncertain] a big-nized wad of [ensh]
[uncertain] any way one regards it.

And, according to Land
[Commisionor] [uncertain] Bascom
Giles, whole office administers the state
school lands, such a balance was not
achieved without dealing with many and
varied entrepreneurs,

Royalty payments and cash [bonuses}]
[uncertain] contributed the major portion
of [the:] [uncertain] quarter-billion, Giles
explains, but [othor] [uncertain] means of
revenue also helped.

For instance, grazing leases brought
\$40,000 to the permanent public school
fund during the last [fiseal] [uncertain]
year while rental of easements across the
two-million-odd acres owned by the
University of Texas brought in some
\$15,000.

The Universitys handsome cash
balance, in excess of \$100,000,000, was
also augmented by 26 water leases, one of
them to the city of Crane for \$300,
Mineral lease holders in the U-T domain
are welcome to water for drilling rigs, but
nary a drop more. Terms of the water
leases vary in almost every instance,
[Commissigrfty] [uncertain] Giles
explains. 4

There arc still other uses for the state
school domain. A lease [near] [uncertain]
Toyah, where a sulphur earth" used in the
manufacture of commercial [fer+ tilizer,]
[uncertain] netted \$475.20 during 1949.
[In] [uncertain] Ward county there are
strips of soil heavy with sodium [sulphate;
cight] [uncertain] leaseholders mine" it
and convert it into salt cakes" for cattle.
Last year this activity resulted in

\$4,342.54 for the school balances,
