According to F. 2% Beanblossom, [extension:] [uncertain] poultry marketing specialist of Texas A. M. College and state chairman for [tht] [uncertain] program, interest has never been better.

Approximately 200 entries have been received and 20,000 chicks are involved. This is practically a 100 per cent increase over the 1949 figures. About 75 per cent of the entries were made by juniors and the balance are in the senior division.

Entries have been received from [25,] [uncertain] counties and among the leaders are p Gonzales county with 36; Dallas, [23;]- [uncertain] Harris, 18, and Travis with 13 en- [P] [uncertain] tries. [White] [uncertain] Plymouth Rocks [lead:] [uncertain]

ENERGY FOODS

MISUNDERSTOOD

[College] [uncertain] Station, March 27.--To the nutritionist ay to the engineer, energy means power from fuel or heat and it is often measured in calories or heat units. The more popular defi- [jnition] [uncertain] of the Word energy includes such terms ns.vpy wigan, [witaliby.] [uncertain] and:

[illegible or non-text passage omitted — see scan]

A homemaker may then conclude [ijthat] [uncertain] the more energy foods her chil- [dren] [uncertain] cat, the more energetic they will be but says Louise Mason, extension foods and nutrition specialist [lof] [uncertain] Texas A. M.

TRAINS WANTING TO DISCONTINUE

Another railroad has filed application with the railroad commission for permission to discontinue passenger trains, this time between San Angelo and Fort Stockton. The Santa Fe is asking for that permission, according to a report from Austin in the Dallas News. Increase in cost of operation and decrease in the passenger business is given as the [cause—too] [uncertain] much expense for.the revenue received. Other lines of endeavor are up against the amie obstacle during this period of President Trumans wonderful prosperity, when more taxes, necessitating higher prices, are demanded' by the president.

ECONOMY PRESSURE INCREASES.

The weight of the drive to cut the amount of the Marshall plan appropriation in the house of representatives is increasing. The economy bloc has set its sights for a reduction of \$500,000,000 in the amount-of cash to be made available during the third year of that give-away program. There is a drive on to modify or eliminate the dollar appropriation for the Point 4 program until some one in authority spells out just what that plan implies.

Both efforts on the part of those who are out to protect the economic soundness of the United States are deserving of support. There must be some reduction in foreign spending if the budget is to approach a balance. The house appropriations committee has so far provided for gave, [ings] [uncertain] of only \$1,500,900,000 in the [do~ 7] [uncertain] [mestic] [uncertain] expenditures" suggested by

President Truman in his 1951 budget estimates. The deficit for that year will, it is predicted, reach as much as \$5,000,000,000. TIME CUT FOR [HANDEING] [uncertain] SOCIAL SECURITY CARDS

The average person filing claim for
old-age and survivors insurance payment
is now getting his first check 10 days
earlier than claimants of al year ago,
according to figures furnished by L. R.
James, manager [of.] [uncertain] the
Lufkin office of the Social [Secur-] ity]
[uncertain] Administration. He said that a
recent study showed that the [average})
[uncertain] time from the date of filing the
[claim.] [uncertain]

until it is certified for payment is now
only 25.6 days, which is a reduction of
10.4 days from a year ago. Approximately

month [froin] [uncertain] the twelve East Texas [counties—including] [uncertain] Houston county which are served by the Lufkin office,

Along with the reduction in handling time, James said, there was an increase in the number of claims, handled" per employee. Half the time- saving was accomplished in field offices, such as the one in Lufkin, and half in area offices, where certification for payment is made. The system of area offices effectively decentralizes operations," James said, [with:] [uncertain]

economy. It is the policy of the Social Security Administration to make filing a claim as" simple as possible and to pay claimants as soon as possible after they [beconie] [uncertain] entitled."

James explained that this quick handling was also due in part to [tak-}] [uncertain] ing most claims during a personal interview, and ironing out details at the time. In order to give this personalized service to claimants the Lufkin office schedules regular visits by representatives of the office to Center, Nacogdoches, Crockett, Trinity, Huntsville, Livingston, Woodville and San Augustine.

Visits to Crockett are made [once] [uncertain] each month, with the representative meeting callers at the court house in C. R. McPhails office. The next [vis-] [uncertain] it will be made on April 25, at [1:00 Peomy] [uncertain] eh yen ce ee i [eee] [uncertain]
