TRUMAN ON PROSPERITY

President Harry Truman, in his state of the Union message in January, boasted of the economic prosperity of the American people and predicted that fifty years from now the income of the average working man will be \$12,000 annually. Sinus Trouble—Ladd

Lady, suffered from sinus trouble for eleven years, during which time she tried all of the usual methods of correction. A complete Scientific spinal examination revealed where the interference was and what was causing it. After the necessary corrections had been started she began to feel relief. After a period of several months the patient reported she was free of pain that she had been in years.

Our examination is for the purpose of helping sick people get well.

We use a method that has been clinically proven.
