[BONEAEADS HAVE] [uncertain] SERIOUS TROUBLE

A unique group of [civie] [uncertain] clowns who have cracked more conceits perhaps than any other organization in Amer- [ica,] [uncertain] tho [Dallas] [uncertain] Bonchend Club, has reached a critical stage in its 31-year- old existence.

There is [no]] [uncertain] way to tell at this time which [view,] [uncertain] will prevail.

Among other major legislation [con- sidered] [uncertain] by the house during the [past,] [uncertain] week was a bill to [inerease] [uncertain] certain postal rates. At the end of tho [last]. fiseal] [uncertain] year the post office department showed n deficit of more than a half billion dollars in its operation. It is estimated the deficit for tho current fiscal year will be around \$400 million. The bill submitted to the house is estimated to increase revenues from the proposed raise in rates and fees by nearly \$182 million. To the extent revenues would be increased if the bill becomes law, there would be a corresponding reduction in [tho]] [uncertain] estimated deficit for this year.

rates on fitat-class letter mail, except for the drop letter. First-class letter mail is the only category of mail which presently brings in enough revenue to meet the cost of its handling. Under present law, post and postal cards may be mailed at the rate of one cent each the bill" proposes to increase the rate to two cents. At the present time the post office department is losing \$57 million annually handling such cards. With the increased rate in effect that loss would be reduced to \$21 million per year, a saving of \$36 million.

The bill provided for increased rates for second-class matter, which [incliidés] [uncertain] newspapers.
