Brannan told a news [conference]] [uncertain] that now is a good time lo tale a straight forward look" at the potato problem which he said hag cost the government \$600,000,000 in the past several years,

The department meanwhile announced that it was slashing [price]] [uncertain] supports on the 1950 crop to, [\$1.01] [uncertain] a bushel, a drop of [9c] [uncertain] below the previous level.

But Senate Majority Leader Scott Lucas [(Dem)] [uncertain] of [THnois] [uncertain] demanded immediate removal of all federal price props for the potato growers." Tam sick and tired of subsidizing certain specialized groups who wont play ball," Lucas said. The time has come to tell the potato grow- [ers] [uncertain] that they cant [coptinue] [uncertain] to get the money from Uncle Sam that they have been getting in the past."

Sen, Clinton D, Anderson [(Dem.)] [uncertain] of New...Mexico,...former. Agricuturo Secretary,- joined in to say that if effective legislation to reduce the nations potato output is not" enacted soon congress may have to jerk out all price supports for the crop. [But"] [uncertain] Sen. [2:] [uncertain] ul [H?] [uncertain] Douglas [(Dem.)] [uncertain] of Illinois contended that [Mtitingthe}.] [uncertain] acreage would, not solve the problem because, he-said, the" growers" then simply would put the rows so close together that potatoes literally are growing bumper to bumper."

Anderson suggested that more emphasis [shouldbe] [uncertain] placed on distributing the surplus through the school lunch program and making them

out the country.

On that point [Secretary Brannan] [uncertain] said his department will try to move as many of the surplus spuds as pos- [stble—into—export—markets_and] [uncertain] they lunch program. But he added that he expected only a comparatively small amount of the present 50,000,- 000 [bushél] [uncertain] surplus will be consumed in these diversion" attempts.

FOR EXPANDING FARM SECTIONS

Mexico City, February [4.—Mexicos] [uncertain] expanding agricultural efforts, which are showing such results as doubling cotton production in a few years, will get another boost through plans to Open new farming areas along the northern frontier.

The latest expansion of farmlands is being studied as a possibility to use some of the nearly two million acres being acquired by the government south of the Texas, New Mexico and Arizona borders in taking pos- session of the Palomas Ranch.

This ranch was owned originally by North Americans and was expro-

a number of years ago. Owners filed claims for four million dollars. [in] [uncertain] damages [and'] [uncertain] were awarded and paid one and one [halfmillion] [uncertain] through the International Claims Commission, Although paid for, the land was not given up by the owners. Now Mexico is exercising her right to take possession after the Supreme Court upheld the governments case, One of well-established legal position in Mexico that foreigners can not own land within sixty miles of an international border. [The-Palomas~Ranch] [uncertain] adjoins the frontier for many miles,

One of Stalins greatest sources of encouragement is what the United States government, is doing to its [rail-]

Mr. Young, on whose private car the-Duke-and-Duchessof-Windsor-are traveling on their current Vacation jaunt, flayed the government for its wide contrast of treatment of three different carriers which may kill railroad passenger service entirely."

The biggest..problem facing the railroad industry now is the preservation of its passenger business which is subsidizing the United" States [government—by-earning,] [uncertain] the mails at a loss and competing with air lines and other carriers which are being subsidized by the government."
