Say "When" for a Ford Tractor
Demonstration that can mean a Lot to You

Yes, it could easily mean a lot to find out, first hand, how much more you could get done and how much hard work you could save if you owned a Ford Tractor.

It's something you need to see in order to believe—the way the Ford Tractor does field work—the ease and speed with which Dearborn implements go on and off (most can be attached or detached in 60 seconds).

You are fighting as desperately, figuring as closely, economizing as carefully and laboring as assiduously as in the days of our mercantile infancy when upon the street under our little awning, our voice could be constantly heard, imploring the people passing night to come under our little awning and buy—then worth hundreds, now worth thousands. Our line of new goods now on route from New York, Philadelphia and Baltimore will surpass anything ever brought to this market, so keep yourself in readiness that the stock might not be too great.

Special—Our stock is now changing from the old to the new, and the price and quality will satisfy you.

Then, at Now—N-E-W merchandise is arriving every day. Come in and see us.
