CROCKETT COURIER: MARCH 6, 1952

**CAPT. W. P. BROWN
MARINE JET PILOT
KILLED IN ACTION**

Captain William Perry Brown, 28, son of Mr. T. C. Terrell of Kilgore, was killed in action Sunday in Korea. His mother was informed by Marine Corps telegram Monday. He was a Marine jet fighter pilot.

Recognized as Gregg county's first flying ace of World War 2, Captain Brown had been in continuous service with the Marine since receiving his many wings at Pensacola, Fla., in the fall of 1943. He left the states for Korea less than a month ago on February 6.

Whether or not he was shot down by enemy fire was not revealed in the telegram received by his mother from General Lemuel C. Shepherd Jr., commander of the Marine Corps.

The message explained only that the flying ace was killed in action in the Korean area on February 24 "in the performance of his duty and service to his country."

Services for him were to be conducted Friday morning at the Marine Corps Air Station, El Toro, Calif., where he was required to make also will be held Saturday morning at St. Anne's Catholic church, Santa Ana, Calif.

Captain Brown's wife and their two daughters, Cheryl Patricia, 10, and Pamela Elizabeth, 2, live at 1430 South Flower, Santa Ana.

While still a lieutenant, the marine pilot became an ace on May 4, 1945, by shooting down four Japanese bombers attacking American shipping at Okinawa. These four killed and before a pilot can be declared an ace—Kilgore News-Herald.

Captain William Perry Brown's mother, Mrs. T. C. Terrell of Kilgore, is a daughter of Captain and Mrs. B. B. Montingo, both of whom formerly lived at Lovelady and one of whom still resides in Lovelady. Captain Montingo, while residing with his family, operated a large Trinity valley farm, but died several years ago. Mrs. Montingo is still an esteemed resident of Lovelady.

**TEXAS COMPANY
GOLDEN
ANNIVERSARY**

The Texas Company's Golden Anniversary Spring Dealer meeting will be held at the Arlington hotel, Dallas, Tuesday, March 11, starting at 7 p. m.

Mr. W. H. Griffin, state manager, will be the leader of the meeting. Mr. Griffin will outline sales plans, programs and objectives for 1952. Dealers will be shown "Setting the Pace," a full color feature-length motion picture produced especially for them. Also featured at the meeting will be "Remember Judson Brown," another full color motion picture, and the film, "Custom-Made Havoline, Two Years Later."

The dealers will be guests of the company at a dinner in the Arlington hotel, Dallas.

Mr. Donald Francis, zone manager, and N. J. Brown Jr., representative dealer service, will participate in the meeting.

**PROCEEDINGS IN
DISTRICT COURT**

A jury commission, appointed by District Judge V. Melvin Johnston of Palestine, met here February 27 and selected grand jurors and drew petit jurors for the March term of Houston county district court. Making up the commission were Frank Beathard of Augusta, Clyde Maples of Austin, Chester Cunningham of Grapevine, John King and Joe Glantz of Crockett.

Among other actions by Judge Johnston on February 27 was the granting of a divorce in the suit of Betty Jean Whitting vs. Fred Whitting.

**MIDDLE CLASS
IN MEXICO**

The prosperity that Mexico is enjoying is creating an ever-growing middle class, which is the best guarantee for the future of the republic. That is the belief of Albert B. Fuller, an ex-Texas from Corrigan, who was the prime developer of Arroyo from a sleepy fishing village to the "Rivera of the Americas."

**\$2048.84 FOR
MARCH OF DIMES**

Miss Erma English, who directed the March of Dimes drive in Houston county for 1952, Friday gave the final figures for the drive. She stated that the total amount contributed was \$2048.84. This total was approximately \$500 less than the amount raised in 1951.

That's a Limit.
Otto Walling passed along the following quote to us: "There is no harm in letting children believe in Santa Claus just then ought to be told the facts before they reach the voting age." Many more voters will be educated to the fact that they're paying for the majority of their "government benefits" out of their own pockets with their own tax dollars.

It's too bad the office of price stabilization can't get prices down to a 1939 level. Example: 3 pairs of shoes \$2.00.

G. K. Hill, the Messenger's correspondent, found the statement among some old papers at Peville—Grapevine Messenger.

Love of Family.
A Texas sheriff recently said that whenever a man whips his wife, she will believe the sheriff to come and get him; and she will make charges against him; but when the sheriff comes to his office the next morning, the wife will be waiting for him there to withdraw her charges and get her husband out of jail. A wife's love for her husband is almost equal to the love of a mother for her runaway son, which may be explained by the fact that he is the father of her children. He is the head of the family.

Not Raining In.
The following inscription is said to be on a tombstone in a family cemetery: "Burrager, as you pass by As you are now so once was I As I am now, you soon will be So prepare for death and follow me. To which some wag had added the following postscript in pencil: "To follow you, I am not content, Unless I know which way you went."

Learned to Marry.

**PUBLIC DEBTS
RISE FASTER THAN
CASH ASSETS**

The American people last year again added to their debts more than they did to their cash assets, according to preliminary government estimates of individual ownership of liquid assets and total personal debts at the end of 1951.

This occurred despite the fact that credit terms were stiffer in 1951 and individual savings in the aggregate showed a decided increase over previous years. It marked the sixth year in a row in which total individual debts have risen faster than the total of personal cash assets.

These cash assets—the principal assets of individuals which are most readily available or convertible for use—are defined by the Federal Reserve System as consisting of currency, bank deposits (both checking and savings), U. S. Government securities, and savings and loan shares. Personal holdings of these assets increased by an estimated \$6 billion in 1951 to reach a total of approximately \$181.6 billion at the year-end.

At the same time, however, debts are estimated to have increased by more than \$8 billion during 1951. Thus, personal debt expanded to exceed the increase in the total cash assets of individuals by some \$2 billion last year. The principal forms of personal debt are consumer credit, mortgage and non-mortgage debt, including Commercial Credit Corporation loans, and life insurance policy loans.

**EX-TAX CHIEF
SAYS ACTIONS
WERE PROPER**

Washington, February 28.—Senator Williams, Republican, Delaware, told the Senate Thursday the government was once more showing for criminal prosecution of a Miami, Fla., man, claiming he owed \$792,094 in taxes, but dropped the case after Joseph C. Numan ordered it as an attorney.

Numan is a former commissioner of Internal revenue who is now engaged in private law practice. He has been the target of a series of Senate speeches by Williams who has been attacking irregularities in the tax collecting service.

Williams said the case he chose for Thursday's speech involved David (Jack) Udell of Miami Beach, Fla., and was the sixth handled by Numan and his associates in which "criminal prosecution for criminal prosecution have been ignored and proposed taxes totaling over \$4 million remain uncollected."

Numan has resigned from his New York and Washington law firms, also coming under fire from Williams, but has declared there was nothing wrong or improper in any of his actions.

**BISHOP HITS
MAN'S LACK
OF RELIGION**

"This world crisis would never have come about if the people had not tried to solve the problems of the world without God," Bishop Nold, of St. Joseph, N. Y., told several hundred Knights of Columbus Sunday night at a banquet in the Texas State Hotel.

Bishop Nold, assisted by his chaplain, Father Thomas F. O'Sullivan and Father Hugh Haffey, presided over the banquet of Sacred Heart church. The Rt. Rev. Magr. Jerome Rapp was celebrant of the mass with Very Rev. Wilfred C. Sharpe, C. B. B., as deacon and Rev. John Perzina as sub-deacon.

Bishop Nold said at the banquet that he felt the crisis between Christianity and communism will reach a climax within the next few years. He said that he believed that if they have the courage of their convictions, he told his audience. Our present state of confusion, doubt, and fear is the threatening ground for communism, he said.—Houston Chronicle.

EXPOSING TVA.
The Cincinnati Enquirer the other day very neatly, and compactly, exposed the activities of TVA claim and the many hypocrisies of which it has been guilty.

For example, at the inception of the Tennessee Valley Authority, its sponsors and the administrators undertook to promote the scheme by presenting it as primarily in the interest of navigation and flood control. Public power was to be a by-product and a subordinate aim. Yet almost immediately, it turned out that power was to be the chief purpose, and that TVA was supposed to be a national park by which the people could measure private rates and service.

**TAKES ARE PART OF
BUSINESS COSTS**

Are taxes a part of the cost of doing business? Most people would say "Certainly—as much a part as wages, materials, rent and everything else." But the Office of Price Stabilization takes another and very curious view.

This became apparent a short time ago when a California light and power company applied to the state regulatory commission for permission to raise its electric rates to produce urgently needed new income. Wall over had the proposed increase would go to meet the loss in federal corporate income taxes.

Of this remarkable viewpoint, the San Francisco Chronicle said: "The argument is without bearing; earnings before taxes are a figure. They are not profits out of which the company's earnings were better than in other years—if the income tax increase were overlooked. If that is so, at least by inference, that taxes are not a part of the cost of operating a business."

If that is so, at least by inference, that taxes are not a part of the cost of operating a business."

Old Tom, having out at his ancestral race for a stirring remark about the handling of Texas' tidelands case, not only was ill-served in that regard, but he didn't quite stick to the facts.

Several months ago, Connally in the half-truth fashion of another tidelands critic, Drew Pearson, said Texas would have won the tidelands fight if the issue had not been confused with similar cases in California and Louisiana. Obviously the split in Texas ranks comes at a most distressing time—just as the tidelands issue is being argued in congress.

Connally and Pearson, and Daniel, he left false impressions about conduct of the case in the supreme court. "Texas' entire defense in the supreme court was based upon our special contract of annexation, which the court ignored by a four to three vote," the state attorney general. "Our cooperation with other states has been limited solely to defense of the general claims of all the states, in the California case."

[illegible or non-text passage omitted — see scan]

Powor, of course, was to be derived from streams dammed up, the pressure operating installations producing thousands of [anits] [uncertain] of electric energy. [These] [uncertain] same [dama,] [uncertain] however, when [krpt] [uncertain] full, lose all meaning so far as flood control is concerned. [Reservoirs] [uncertain] should be practically empty If [floodwaters,] [uncertain] in times of [freahet,] [uncertain] are to be impounded and prevented from over- flowing lowlands.

Nor must it be forgotten that such [dama,] [uncertain] along rivers Ilke the Tennesere and the Cumberland, rapidly [ailt] [uncertain] up, and progressively lose whatever value the possessed.

But later on, in order to [geoviée] [uncertain] against low power production because of low water, the authority asked congress for millions.with [whkh] [uncertain] to bulld.coalburning powerhouses. Hydroelectric [Installations] [uncertain] had to be supplemented by steam plants. At [thie ttmy] [uncertain] 14 per cent-of the current de rived from plant now in operation is from steam installations. But with the completion of the [contemplatrd ateam] [uncertain] powerhouses 60 per [cont] [uncertain] of the energy Will be Gertved from coal, af: Which the authority will use annually

Nor should it be forgotten that TVA [haa] [uncertain] no interest to pay, and the [Lares] [uncertain] paid to local [unita] [uncertain] of government fall far short of those formerly paid by private companies.
