JAPANESE PEACE
TREATY PASSED

Washington—Senator Tom Connally

of Texas, chairman of the Senate Foreign Relations committee, this week hailed ratification of the Japanese Peace treaty and the related Pacific Security pact as "a long step forward toward lasting peace in the Pacific area."

the peace treaty to senate approval by a vote of 60 to 10 after defeating all reservations proposed by opponents of the treaty. The security treaty with Japan was ratified by a vote of 68 to 9, also after all reservations had been beaten down. The example of senate bipartisanship on Eisenhower for the Republican presidential nomination in two years, for the

Democratic foreign policy leader, Senator Tom Connally of Texas, and the New York Times said that the vote of 60 to 10, far more than the required minimum of a two-thirds majority, was "a victory for the first of General of the Army Dwight D. Eisenhower for the Republican presidential nomination."

Democratic foreign policy leader, Senator Tom Connally of Texas, and the New York Times said that the vote of 60 to 10, far more than the required minimum of a two-thirds majority, was "a victory for the first of General of the Army Dwight D. Eisenhower for the Republican presidential nomination."

DAVY CROCKETT
TRINITY COUNTY
SOIL CONSERVATION

Cooperators L. T. Muckleroy, Willie

Salmon and Dale Galt, whose farms

have some winter cover crops that

have done good this winter. They

had enough growth by March 1 to

be turned under as a green manure

crop. These crops will add both ni-

trogen and organic matter to the soil,

increasing fertility and water holding

capacity.

Dr. John L. Dean Jr., cooperative

whose farm is located twelve miles

west from Crockett, on the Arthur road,

is making preparation to seed 30 acres

of Kula lespedeza. The land has been

planted with 50 pounds of seed per

acre. The seed rate for Kula is 35

pounds per acre. He has five acres

of Sericea lespedeza, which was seed-

ed at the rate of 40 pounds of seed

per acre and 300 pounds of 3-12-15

per acre. He plans to top dress all

of his lespedeza when it is up to a

good stand.

A. B. Cason, cooperative whose farm

is located nine miles southwest from

Crockett, on the Madisonville High-

way, is planning to increase his seed

and vetch with Kula lespedeza. He

has 45 acres of vetch and oats that

were planted in the latter part of

September 1951. The land was limed

and 400 pounds of 0-16-2 fertilizer

was applied at planting time. The

oats and vetch were recently top

dressed with 100 pounds of ammoni-

um nitrate. Mr. Cason feels that by

seeding the lespedeza now it will give

him some good summer grazing after

he harvests the oats and vetch. He

is also preparing 20 acres for Sericea

lespedeza. The land has been limed

and 500 pounds of 0-16-2 have been

planted into the top soil. He plans to

seed now, using a split-applier seeder.

J. D. Patrick, cooperative with the

Davy Crockett-Trinity County Soil

Conservation district, whose farm is

located three miles west from Porter

Spring, is well pleased with winter

cover crops. He has Singletary peas,

vech, Austrian winter peas and Blue

Wonder peas. He said: "I spent \$200

on one hundred (100) acres of cover

crops for seed and fertilizer and

\$100 for feed, and the \$300 made

me a lot more than the \$1000." He

says it doesn't take an expert to tell

the cows and calves that were on

the cover crops from those that were not.

The much better condition of the cows

and calves on the cover crops is easy

to spot.

By rotation of the cattle from one

plot to another, there is no notice-

able damage to the cover crops. He

plans to harvest some of the vetch,

Singletary peas and vetch. The Aus-

trian and Blue Wonder peas will be

turned under as green manure crops.

Mr. Patrick has already planted 30

acres of Kula lespedeza for summer

pasture. He applied 310 pounds of

5-10-5 per acre on 20 acres and 300

pounds of 3-12-15 on the other 10

acres. The seed rate for Kula is 35

pounds per acre. He has five acres

of Sericea lespedeza, which was seed-

ed at the rate of 40 pounds of seed

per acre and 300 pounds of 3-12-15

per acre. He plans to top dress all

of his lespedeza when it is up to a

good stand.

This is a suit in Trespass to Try

Title to the following described land

and premises:

All that certain tract or parcel of

land, situated within the corporate

limits of the City of Crockett, in Hous-

ton County, Texas, being a part of

the A. E. GOSSETT SURVEY, Ab-

stract No. 423, described as follows:

BEGINNING at the intersection of

the West margin of Commerce Street

with the South margin of a street

known formerly as Pat Street;

THENCE South 71 East 291 feet

to the place of beginning, containing

of acre of land, more or less.

Plaintiffs sue for the title and pos-

session of said land, and claim title

in the same under and by virtue of

the Statute of Limitation of Ten

Years, and specially plead statute of

limitation in support of their title

to said land.

If this citation is not served within

90 days after date of its issuance, it

shall be returned unserved.

WITNESS Ernest Hale, Clerk of

the District Court of Houston Coun-

ty, Texas.

GIVEN under my hand and seal

of said Court at office in the City

of Houston, Texas, this 27th day of

March, 1952.

Patricia Coulter, advertiser.

That's stretching it a bit, but

actually you can't over-emphasize

SAFETY. Let your car ready for

the season ahead. We're ready

to help you.
