TAKING OUK SILIIRTS.

Late in February 6
shirts-for-congreamen campaign was
[atarted] [uncertain] in California. The
originator of the idea was a State Farm
[Dureou] [uncertain] official, who told an
audience: To my congressman, I say: You
are taking now in taxes" everything but
my shirt. You might aa [wel] [uncertain]
have that too." He then yanked off [hia]
[uncertain] shirt, and number of [othera]
[uncertain] followed suit. Thr campaign
was enlivened by a woman who sent her
congressman a girdle, with a note
suggesting a little mere figure control" Ly
congress. At ant likely this campaign will
go [far—after] [uncertain] the tax
collector gets through with the average
citizen he

has to make bis shirts do double-duty
and he cant afford to throw one away.

\$ But it is ao [rignificant saielight oan]
[uncertain] the most menacing domestic
problem 1 the country faces. Last March,
we paid the biggest tax bill in our his- [FF;
tery.] [uncertain] Banka and other
agencies [rea] [uncertain] y ported that
borrowings tu pay Lares bb were
extraordinarily [large—and] [uncertain]
they sone were made by people who
needed a

4 hundred or so, no less than from high-
income taxpayers who found theme i
[aclves] [uncertain] short by thousands,

Even so, it this tax bill want ar large an the
[pte] [uncertain] administration wanted.

Taxcs now take some [Ju] [uncertain]
per cent j o of the entire national income.
That [1] [uncertain] simply means we
work almost four f months of the year to
pay the cost of government. Is it any
wonder that my taxes are undermining
incentive, discouraging the investment of
capital a and making it next to impossible
for [I:] [uncertain] a man to accumulate
substantial [sayvt] [uncertain] rings?
Taxes arp taking our [shirta— Phd.]
[uncertain] and taking the heart out of the
count o try.

THEY CAME TO THE RIGHT
PLACE ae When, some years ag,
[Britains] [uncertain] Labor [guyrmmnt]
[uncertain] began socializing basic
industry, it was widely said that Dew ere
was in the making. Pro- auction would
flourish, Hving standards would rise, and
everybody would be happy thew era
dawned all right, but It [hardiy]
[uncertain] lived up to its advance
publicity. Socialism produced scarcity, a
sharp drop Jn living standard, widespread
labor [unrrat,] [uncertain] and general
undermining of Britains whole economic
[structare.] [uncertain] Coal, that
all-important fuel, is a glaring [example.]
[uncertain] Much of Englands [eepnomic]
[uncertain] plight is directly attributable to
her inability to produce enough coal.
[Thats] [uncertain] also true of moat of
Europe. [Uniler svcialiam,] [uncertain]
coal production [aickenel,] [uncertain] ft
te an interesting fact that Britain recently
act a [I3-man] [uncertain] team to this
country for the purpose of studying
[Aimcrican] [uncertain] methods of
utilizing coal. Due to the shortage,
England must try to make every ton of
coal do [maximem] [uncertain] duty.
[Amenran] [uncertain] methods of
burning coal, [Just] [uncertain] like
American methods of producing coal in
the first place, are far superior to those
practiced abroad. Here in one more
example of the fact that free enterprise can
always vut-perform [pucialized]
[uncertain] or [governmentdminated]
[uncertain] enterprise. The American coal
industry and the industries which consume
coal rare constantly [seeking] [uncertain]

ways to make the fuel more efficient and
useful. They [arent] [uncertain] satisfied
with the achievement of the pant, great ar
those have been. They want to do better
tomorrow,

Businesamen should net take the

[illegible or non-text passage omitted — see scan]

The underlying trouble with America [i> thet] [uncertain] idealism is dead. [She-has ust] [uncertain] both character and conscience.) She has even lost caste. Her ills are primarily [apiritual] [uncertain]

Amerika needs above all else today the sweep of patriotic revival that will air Che nation to its sordid depths and lead it back to decency.

Unti! Americas heart is clean and her conscience clear [ahe] [uncertain] cannot hope for social or economic [salvation—the] [uncertain] crying need is fer honest men: It is the only way we can redeem the [couniry.—Clayton] [uncertain] Rand.

It is not so much what we may think of ourselves, but what others may think of us. [If] [uncertain] our neighbors do not think well of us, they may have good cause for so doing, [snd] [uncertain] it may be up to us to make some corrections in [ovr] [uncertain] conduct. If they do net think well of ua, they may align [themacivrs] [uncertain] against us, and we may find out that It was our fault If they do not agree with ua, it may be because of our disagreement with them. If we do not give the other fellow the right to think in his own way, we cannot expert him to allow ut that privilege. We cannot claim the right of free speech and privilege without extending the same rights [to] [uncertain] others. Theae things must be io respectful consideration, of course, of [eack] [uncertain] uther rights and feelings.

FUTURE GAMBLING.

[People] [uncertain] in the government scoff at the statement that we are going [avciahatic,] [uncertain] Yet, when you turn [orer Freat] [uncertain] power to government you are rambling with the future. Tomortuws heirs of those in power today may not be so benign. Another

danger is that you are conditioning the people to [meceplance] [uncertain] of [centralised] [uncertain] power, Once we begin to [comproinee] [uncertain] with centralized federal control we have begun to steer straight for the [skidrow] [uncertain] of socialism
