SHOULD BE RESTORED.

The two-thirds rule had the effect, during more than 100 years, of giving every section of the country an effective voice in choosing the party's nominees and of making the Democratic party truly a national party.

Its abolition in 1936 destroyed the party's national character and because, at the same time, the unit rule was kept in effect, it gave the big cities, with their organized minorities and their corrupt machines, a dominant voice in the party's affairs. And, of course, it destroyed the influence of the Southern states in party affairs altogether.

There is as much reason today for the two-thirds rule as there was when it was first adopted. In the convention at Chicago in July there will be a total of 1,230 votes. And seventeen states in the northeastern corner of the map, extending in a solid block from the western tip of the Great Lakes on the north and from Missouri on the south to the Atlantic Coast, will have 552 of those votes. Only the sixty-eight votes of California need be added to make 620 votes, a **clear majority. The other thirty states** will have less than a majority, and the thirteen Southern states will have only 340 votes, considerably less than one third.

Restoration of the two-thirds rule would not give the Southern states any "veto" power, but it would make the Democratic party a truly national party again, with all sections of the country, including the South, having a voice in choosing its nominees for the presidency. That's why it should be restored.—Southern Weekly.

WE NEED THESE TAXPAYERS.

There is one little matter the drumbeaters for socialized electric service always try to sidestep. It's what happens when taxpaying enterprise is supplanted by tax-free, tax-eating enterprise.

As a good example, take a California power and light company. This concern pays $2 in taxes every time the clock ticks. Last year, its total taxes were close to $66,000,000, which works out to something more than $180,000 for every day of the year.

Taxes are the company's largest single item of operating expense. In 1951, they exceeded by over $14,000,000 the payroll for all employes save those engaged in construction. And they exceeded by more than $25,000,000 the total paid in dividends to the 188,463 people who own the company.

This utility pays property taxes in 48 of the state's 58 counties. And in several of the counties it pays over 10 per cent of the total taxes collected—that is, more than all the other taxpayers combined.

All over the United States power companies, regardless of their size, are among the largest and most dependable taxpayers. On the average, substantially more than 20 per cent of all the money these utilities take in goes out for taxes. Every time they improve and expand their facilities new taxable assets are created—and every unit of government, from the village to Washington, D. C., benefits financially.

Contrast this with socialism, which levies heavier and heavier taxes on the people—and destroys our liberties with our money!

FROM HOUSTON CHRONICLE.

Senator Connally gives as his reasons for withdrawing: The arduous responsibilities of the position he has occupied the last few years, the chairmanship of the all-important foreign relations committee; and the necessity for a strenuous campaign for re-election which he was unwilling to undertake. That is understandable. The senator has been honored by the people of Texas as few men in public life have been honored. Thirty-four continuous years in the national congress should be enough to satisfy the most ambitious in political life—except, of course, a final promotion to the presidency, and the senator has shown no inclination of that ambition.

While the Chronicle has not been in complete accord with all of Senator Connally's activities, generally speaking it has gone along with most of his course during his 34 years in congress. We feel he can now retire with the satisfaction that he has served his state and his country with fidelity and with considerable effect.

Now that he has made the decision to retire from public service we think he will be much happier and we wish for him and his family many years of contentment and enjoyment of life.

$120,000 MONTHLY ON ILLEGITIMATE CHILDREN

Richard M. Morehead in Dallas News.

Austin, Texas, March 29—Seven thousand illegitimate children are on Texas welfare rolls.

State and federal taxpayers put up $120,000 a month to support these youngsters born out of wedlock. Nearly $700,000 a month goes to help 40,000 other Texas children whose parents were married. In about half these cases, the father has deserted. The others are orphans or half-orphans.

"A real sore spot" is the way State Welfare Director John H. Winters speaks of the illegitimacy problem.

"In Texas, neither father nor mother is legally responsible to support an illegitimate child.

"But can we punish a child for the sins of its parents? Somebody has to feed the youngster."

Winters does not believe that the child-aid program encourages illegitimacy.

There is an $85 per month limit on the amount a family can receive. An $85 grant covers five children.

The average monthly payment is less than $50 per family. The average per child is $17.

"That's hardly enough to encourage a person, even in the lowest income bracket, to produce children just for the welfare check," Winters said.

Three of every 100 Texas babies are born of unmarried parents. This percentage has not varied for more than ten years. It was the same before and after the government started aiding needy children.

"This is an indication that the dependent child problem has not contributed to illegitimacy," Winters said.

He estimated there are 90,000 Texas under eighteen years old who were born out of wedlock.

"They are a social problem from beginning to end," Winters added. "Quite a few of our old-age pensioners once were illegitimate babies."

Winters said the department's staff tries to make parents support their children whenever possible. If an immoral mother refuses to help provide for her children, the case worker asks other members of the family to take them. In extreme cases, state aid may be cut off from the whole family.

"We [illegible] for somebody to look after the children," Winters explained. "The money is for the benefit of the children, not the mother. There is no point in rebuilding a mother who will not try to look after her own children."

Trying to get fathers to support children is a big task.

Two national three [illegible] agencies now in the state help a little. In two cases out of [illegible] fathers are kept [illegible] the father has run off and left a wife and children.

[illegible] Texas.

Counties [illegible] cases in an effort to get the fathers to support their children. Where such efforts are successful, or other means must work, fathers get by with [illegible].

For fathers of illegitimate children, seven states now use the blood test to establish paternity. If a man is found to be the father, the court can make him help support the child.

"Such a law might help in Texas," Winters said.

CALLS RUSSELL LAST CHANCE OF SOUTH

Washington, April 8.—Sen. Richard B. Russell of Georgia represents the south's last great chance to place a southern statesman in the White House.

This opinion was expressed by Sen. Karl E. Mundt (Rep.) of South Dakota in a speech before the Mississippi Economic Council at Jackson, Miss.

Mundt has for two years advocated a coalition of like-minded northern Republicans and southern Democrats as a way to save the nation from socialism.

A group recently surveyed the possibilities of the plan, but reported nothing could be done, if at all, until after the national conventions.

If the Democratic convention rejects Russell, the Republicans have several candidates available who would be acceptable to the south, Mundt said.

He did not name these GOP candidates.

Mundt advocated a southern party, headed by Russell, if neither the Democrats nor Republicans offer candidates acceptable to the south.

No Fair Deal Democrat can win in November without the 128 electoral votes of the eleven southern states, Mundt declared.

"Should the good people of Dixie after the two conventions in Chicago find themselves again rejected and repelled by those controlling the Democratic convention and also find themselves unwilling or unable to accept the offerings of the Republican convention, an all-south; Dixie-wide convention nominating, say, Sen. Dick Russell for president could guarantee a victory for constitutional Americanism in 1952," Mundt said.

JUST A WORD WITH OUR SUBSCRIBERS

We have only five subscriptions and renewals this week against twenty-one last week. Something is wrong somewhere. The editor has not kicked anybody's dog, argued politics with anybody, disputed anybody's religion, refused to chew anybody's tobacco, nor has he turned any hogs into anybody's corn field, doubted anybody's fishing story or villified anybody's liquor. He has done none of these things. He has done none of these things, so he is charging it up to that recent fine rain, believing that everybody except himself is at work, as we should be—earning our bread by the sweat of the brow, and it takes a lot of sweating to earn our bread these days. REGULAR MEETING IN CROCKETT

The Piney Woods Optometric society, affiliated with the American Optometric association and the Texas Optometric association, held its first regular meeting in Crockett recently. The society was formed by optometrists in Anderson, Angelina, Cherokee, Houston, Polk, Trinity and Walker counties to promote the welfare of the people in this area, insofar as can be done by the exchange of ideas on the more up-to-date methods of optometric eye care, and to promote cooperation with all other organizations of similar purpose.

The following officers were elected: Dr. John McCall, Crockett, president; Dr. Nash Hogue, Lufkin, vice-president; Dr. P. A. Kolstad Jr., Palestine, secretary-treasurer; Dr. K. B. Swain, Huntsville, delegate.

The Piney Woods Optometric society will hold regular meetings on the second Tuesday of each month at Crockett.

Your vacation starts when you take the wheel

YES, we know vacation time's still a few weeks away.

But before you start laying out your sport clothes, giving last year's bathing suit a critical gander, or scanning road maps, we'd like to ask one important question:

How are you going to get there?

Will those miles you decide to travel slip beneath you so easily that you hardly know the road is there?

Will you pull up at a hotel, motel or camp, wishing you'd set your sights on one another two hours away?

Will your shoulders be free from aches—and you-know-what free from numbness?

The best way to get the right answer to these questions is to start out in a Buick.

There's legroom, shoulderroom, elbow-room for everyone to ride at ease—and big, soft, deep cushions to keep you comfortable.

There's a Million Dollar Ride to soothe the miles.

There's an oversized trunk to keep the car uncluttered.

There's Dynaflow Drive* to let the driver ride relaxed for hour after hour and protect back-seat riders from that wooziness that goes with lurch-and-go driving.

And along with all this, there's a mile-eating Fireball 8 Engine—a high-compression valve-in-head with turbo-top pistons—that stretches a tankful of gas surprisingly far.

Time's aflocting. If you want to make this year's vacation trip a joy from the day you leave home, the wise thing to do is order that Buick now. How about a demonstration?
