JIM NORTON
ANNOUNCES
FOR CONGRESS

To the Citizens of the Seventh Congressional District of Texas:

Jim Norton is thirty-four years of age, was born and raised in Nacogdoches county and attended its county schools. He was graduated from Nacogdoches High School, later attended Stephen F. Austin State College before and after his enlistment and service in the United States Marine Corps, which was a six year tour.

Upon completing his degree in Stephen F. Austin State College he entered the law school of the University of Texas. Upon completion three years later, he was honored with a license to practice law by the Supreme Court of the State of Texas.

Jim Norton is a practicing attorney and served four years through three sessions of the State Legislature from Nacogdoches County, Texas. Later he learned that the Honorable Tom Pickett would not ask re-election, promptly announced, and has been aggressively campaigning since.

Jim Norton announced for Congress on February 13 following Mr. Pickett's announcement of the day before.

Jim Norton has always enjoyed studying the government and history of this nation. He has made it a point to study government, as his life-long ambition has been to go to Congress. He wishes to be so favored by the constituents of the twelve counties of the Seventh Congressional District.

Jim Norton has been married twelve years to the former Juanita Campbell of Gentry, Texas. He has two children: Jamie, a daughter seven years of age, and David, a son two years of age. His aged parents, J. L. Norton Sr. and wife, are life-long residents of Nacogdoches County, Texas.

Jim Norton

dishes County, Texas. Jim Norton's family are active members of the First Baptist church of Nacogdoches. He is a member of several lodges, clubs, Veterans of Foreign Wars, American Legion, and Disabled American Veterans.

Jim Norton makes the following statement: "It would be impossible for me to go into detail in discussing my theories of government in this article. I can say that I am fundamentally a States Rights Jeffersonian Democrat. The people of this district are entitled to know how any candidate stands on the great issues of today. During this campaign I will present my views as forthrightly and honestly as I possibly can. I believe and insist upon integrity, honesty, truthfulness and uprightness in government. I shall always strive to conduct myself as such, and those around me will be required to do the same."

I believe the recent disclosures with reference to the Federal tax collections are most deplorable. The Mink Calk episode, the deep freeze criticism, and the five-centers are all certainly very disgraceful and should be below the dignity of people connected with the Federal Government. Such people should be entirely eliminated from governmental service.

I will always remember that if elected to this important position that I will represent a part of this great state of Texas that calls a man by his front name and doesn't give a hang whether he's rich or poor, fat or thin, tall or short, so long as he is honest and true with the best that is in him to represent and support his public.

I want to make this district one of the best congressmen it has ever had. I want to make it one of the best congressmen it has ever had. I want to make it one of the best congressmen it has ever had.

Thanking you for all the past and future support I shall be as prompt as you as humanly possible between now and election day.

Respectfully yours,
Jim Norton.
