General Eisenhower decides that he wants to come back to the United States and run for president of the United States, a job that pays \$100,000 a year and all expenses. He so advises President Truman, and Harry says the deal, and Gen. Ike comes on June 1. That brings forth ideas. May be some of the Cherokee county boys would like to come home and run for reelection or something. In our democratic way of life, where the constitution guarantees equal privileges to all, this is entirely possible, so if some of you boys want to come home and run for an office that would bring a bigger pay check, you might take it up with Harry down, like General Ike—ditto Herald.
