THE STATE MEALTH OFFICER SAYS

It appears that modern civilization is
exacting [a»] [uncertain] terrific toll. High
speed:

4 living, with its true) exaction upon
nature, ia responsible for a large part/ oe
of the trouble. But improper personal f
conduct must also shoulder much of the
blame. The fact in that nearly,

fifty per cent of the patients [entoring]
[uncertain] hospitals for mental disorders
are [4] [uncertain] there because of
organic ur toxic

causes.

The excessive use of [alculhol]
[uncertain] is refer [sponsible] [uncertain]
for a number uf mental dis-, f orders.
Alcohol and syphilis somme, [4]
[uncertain] are [reaponaible] [uncertain]
for approximately [une] [uncertain]

fifth of the hospitalized [insanities.]
[uncertain] Nevertheless, improper living
[babitg.] [uncertain]

[aufficiert] [uncertain] asleep, neglect
of bodily care" and a consistent
[overforcing] [uncertain] of ner-' [vous]
[uncertain] energy are the pitfalls to avoid
in this connection.

Nature demands that her fundamental
laws be af cast reasonably observed. A
constant outraging of the [physiologicml]
[uncertain] economy takes [ita]
[uncertain] tall not only in bodies, bul in
minds also. Insanities and [lessct]
[uncertain] nervous disorders could be
spectacularly reduced if this fact was more
generally Feapedted. Trainmg for mental
health must be started in childhood as that
ia the time when corrections can be made
