DISTRIBUTION THREATENED

By Jerry Johnaon, Seeretary-Manager
Texan Retail Grocers Aasociation.

If price and wage controls are gu- Ing to be continued beyond Jane W, something must be done to mend both the law and [ita] [uncertain] administration, or a good many food retailers throughout the country will be out of [busthess] [uncertain] and a good many more will be [swim-.] [uncertain] ming in red ink.

Directly or indirectly, everybody has ar important stake in the efficiency). and economy with which foods are produced and distributed. That is [why/.] [uncertain] it is important to everybody to know that under government regimentation our corner grocer is In a [squeete] [uncertain] which may hit all of us with a dull thu if we [dont] [uncertain] look out. Without real benefit to the consumer, an unrealistic price harness has robbed most grocers of a great past of [thelr] [uncertain] already modest profit. Bome [ary] [uncertain] going broke. [Othera,] [uncertain] operating in the red, may [atick] [uncertain] ft out a while longer, on their savings. Still others [eren] [uncertain] the [biggest—are] [uncertain] taking a terrific beating, though they may not yet be [horering] [uncertain] on the brink of insolvency.

To illustrate; Prior to OPS, the [18year] [uncertain] average profit of large [sampie] [uncertain] of American food stores was 1.4 cents on the [dollarof] [uncertain] sales. In other words, 14 cents profit on a \$10 basket of

Grocers can work on this profit [basla—believed] [uncertain] to be the lowest of any type of [business—because] [uncertain] of fast turnover of their [merchandlee.] [uncertain] Otherwise they couldn't survive at such a low profit rate.

The Office of Price Stabilization last year put the grocers in tight strait- Jacket of controls which literally paralyzed them. By cramping their flexibility and maneuverability In handling merchandise on a quick turnover basis, OPS unnecessarily increased grocery" cost of doing [bualness—and] [uncertain] all but wiped out [thelr] [uncertain] profits. [Average_profits] [uncertain] in the stores surveyed dropped to 76 of a cent per dollar of sales during the [secand] [uncertain] half of the year, when controls were fully in. [effect—and.] [uncertain] fully felt. [Thats] [uncertain] a profit of 7.6 cents on a \$10 basket of groceries, Too little for comfort. Too little to get by an.

Fulton J. Sheen in Houston Chronicle.

The desire for distinction s one of the moat radical principles of our nature even though it be crucified and buried In an unexpected moment it revives and [rieecs] [uncertain] again in [powcr.] [uncertain] The subtle passion is strongest in the [middie] [uncertain] period of life t comes In between the love of pleasure which beset youth and the love of gain which besets old age. Inasmuch as service ia a voluntary undertaking of a work in obedience to the Higher Will, it is corrective of these tendencies.
