PRESIDENT NOT

[UNDERSTOOD] [uncertain]

[ongview, Texas,] [uncertain] August 15, 1982. [Editor Counner,] [uncertain]

Crockett, Tex. Dear Sir: [The] [uncertain] method of electing a president which is in use today ts not entirely understood by many voters and, therefore, subject to much criticism.

One of the main complaints is, Why should J role? The electoral roller [clects] [uncertain] the president anyway."

Election of the president posed quite a problem for the fathers of our country. They wanted the election to be [fxir] [uncertain] to al and partial to none.

Direct election of the president, or public election, was considered tnt-practical by the framers of the con- [stitution.] [uncertain] The idea of congress se- jetting a president was seriously con- [pidered,] [uncertain] but later dropped in [faror] [uncertain] of the electors) college. It was de- [cided] [uncertain] that electors were to be chosen from [cach] [uncertain] state in any Manner [prelecribed] [uncertain] by the legislature. In the early days the [Iegisiatura] [uncertain] of each tate chose the electors, but sentiment for popular elections began to grew land by 1832 al) states except one dis.

continued election of electors by the legislature in favor of popular elec- tons. That is the way [tbey] [uncertain] are chose [jen] [uncertain] today in all states. Rach state is allowed the same [num.] [uncertain]

[ber] [uncertain] of electors as tt has members of congress. Each elector is entitled to one vole. That being the case, Texas will have twenty-four votes in the electoral college this year, [Oniy] [uncertain] five staves have more votes than Texas, [UL bas] [uncertain] often been suggested that the electoral college be [dinconimued] [uncertain] land the president be elected by pop- lar [fota.] [uncertain] It has also been proposed, in the Lodge-Goasett Resalution for an

amendment to the [conatituteen,] [uncertain] that electoral votes of [cach] [uncertain] state be counted the [aatme propurition] [uncertain] as Lhe popular rote for each candidate. Jn most states, the names of the presidential Nominees do not [apprer] [uncertain] pn the ballot. However, according to the new election law im [Tenxaa,] [uncertain] the names of the candidates will be on.

the ballet and a rote fer the nominee of party will be s vote for the elect.

[ors.] [uncertain] The electors who are elected will assemble at the [rtate capito]] [uncertain] on the first Mondsy after the second Wed- [nesday] [uncertain] jp December and cast their votes for president. A party reveit- ing [majonty] [uncertain] of the popular rote bm the state [sutematically] [uncertain] gets all the electoral votes. However, when the [jelocctors] [uncertain] meet to cast their votes it is only assumed that they will vole for their party [pominer.] [uncertain] Only Cale, [furnia] [uncertain] and Oregon, by lew, require it directly. On January 6, following the presidential election, the two buses af congress [mevt,] [uncertain] in accord: [ance] [uncertain] with [thé] [uncertain] Twentieth [Amendment,] [uncertain] in general assembly and count the electoral votes. There are a total of B31 electoral votes just It takes! 266 w win. If no presidential [candxtate serurra] [uncertain] masonry of the eler-) tora) votes, then the house of [repreeeentistives] [uncertain] chooses from the three highest candidates, with each slate) allowed [une] [uncertain] vote. This gives [pil] [uncertain] states equal power in electing the president regardless cf [sise] [uncertain] or population.
