NOW IS THE TIME TO GET INDUSTRIES

By H. B. Milburn.

A mass meeting of citizens was called at 10 o'clock at the district court room Wednesday morning for the purpose of discussing the Crockett Industrial Foundation plan.

Mr. Claude Brown, manager of the Texas Power & Light company, explained in detail the reasons, back of this plan, saying that the trend of the population of the county was in stanzas have touched them, and that working work elsewhere and namely even will say as they look upon the along the coastal areas, where industrial activities were in progress.

Mr. Brown explained further that John Rankin

it was to the interest of every loyal citizen interested in the growth of the town and county as a whole to develop and promote something to induce industries to this area; that now is the time that citizens get back of the plan and have something tangible to offer industries that wish to come into this area and wish to settle here.

Frank Granberry explained in detail the plan of the Crockett Industrial Foundation, Inc., saying that the organization was set up on a non-profit basis with no quick-time return on the investment; that it was a long-term program and designed to buy industrial sites and make it worthwhile to induce an industry to come here.

County stock is to be thirty thousand dollars, 50% of which is to be paid into the organization in forming the organization, and the rest of the capital stock paid on demand after six months.

In the first 30 minutes in which stock was offered 112 shares were subscribed to, which amounted to some \$3,000.

JUSTICE AND VOTING PRECINCTS REDUCED IN COUNTY

The commissioners court of Houston county, in its regular session Monday, voted to reduce the number of justice precincts in Houston county from eight to four. It might be said that the precincts of Crockett, Lovelady, Grapeland and Kerrville-Ratcliff will be retained under the reduced number. It is probable that none of the other precincts has had a justice of the peace or a constable in a number of years.

The court also voted to reduce the number of voting precincts in the county from thirty to twenty-eight. Precincts eliminated are South, which will be divided between the precincts of Bellett and Wickett, and Prairie Point, which will be divided between the Lovelady and Wickett precincts. The changes will not be effective until 1961.

Build Upon a Rock.

When we build, let us think that we build forever. Let it not be for present delight, nor for present use; let it be such work as our descendants will thank us for, and let planned in detail the reasons, back of this plan, saying that the trend of the population of the county was in stanzas have touched them, and that working work elsewhere and namely even will say as they look upon the along the coastal areas, where industrial activities were in progress.
