g IT COULD BE WORSE

Crockett Courier — September 11, 1952

Texas crop and livestock producers are taking a terrific beating from the elements. [Economic] [uncertain] losses are mounting steadily and, should the drouth [efid] [uncertain] suddenly, months and perhaps years will be required in [soe] [uncertain] cases for the most severely hit areas to make a [ful!] [uncertain] recovery. But, according to W. [L.] [uncertain] Ulrich, 4 [ltural] [uncertain] engineer for the Texas [Agricatural] [uncertain] Extension [acrvice, unfesa] [uncertain] care is [oxetciaed] [uncertain] the situation may become even worse. The high temperatures and the [leck] [uncertain] of [rooisture thave] [uncertain] created a situation that js [tsiloreade forfires. Carelestness] [uncertain] on the part of motorists or aft citizen could lead to damages even more serious than those caused by the drouth.

A fire for example could destroy what forage ts left in [pestures] [uncertain] or fields stored crops barns and other outbuildings farming equipment the hume, and might even take the life vf a member of the family. [Condltiuuns] [uncertain] are such that Ulrich recon: [tnenda] [uncertain] neighborhood and countywide action to hold fire [loas&gs toa] [uncertain] minimum.

A common awareness of fire [hasarde wil]) [uncertain] do much to prevent the accidental starting of fires. Firo lanes and careful back-firing are practical aids for keeping fires out of woods and pasture lands. Woods and tall guess around buildings or feed [atacks aould] [uncertain] be removed and, warns the specialist, [dont] [uncertain] burn trash unless you [contro]) [uncertain] the fire.

Remember, he says, rural fires are caused chiefly by smokers, incendi- aries and careless burning by rural residents themselves. He adds we cant keep Texas green this year, but every effort should be made to keep what we have. The fire season is on.

Be careful.

ATTENTION, KOREAN VETERANS

Veterans with service since the start of the [Korean] [uncertain] campaign who [arr pPienning] [uncertain] to gv to school

under the Kurean GI Dill eerie advised today by the Veterans Administration [tol] [uncertain] take along enough money of their own te tide them over for [sbout~ Twoy] [uncertain] [montha,] [uncertain]

The reason, VA explained, [i»] [uncertain] that, under the law, Gf education and train- ing allowances cant be paid until sometime after am veteran actually completes each month of training.

Therefore, one month of the delay will. Le caused Ly the veteran com.

plating his [imenth] [uncertain] of [tralning,] [uncertain] The Law also requires Uist both the [trteran] [uncertain] and his school Or training es- [tabliahment] [uncertain] submit a certification to

[VA—after] [uncertain] the end of the [month—w] [uncertain] the effect that the veteran actually war enrolled in training during that

This, [tyo,] [uncertain] takes time, ao VA urged [ahools] [uncertain] and establishments te get the certifications in ae quickly as pos- [aiblg] [uncertain] after the end of the month to keep the time at minimum

Finally, after VA receives the cer- [tification,] [uncertain] it must compute how much GI [aliowance cach] [uncertain] veteran is [cnpitied] [uncertain] te, [aud swust] [uncertain] mail out the [paymenta] [uncertain]

This process, VA said, normally will be kept down to 20 days from the date VA receives the certificate Because of all these factors, post-

Korea veterans would be wise lv allow very two months before they can ex- [pect] [uncertain] a check from the government, VA and. [Afterwards,] [uncertain] of course, checks will come regularly [cach] [uncertain] month, so long as they remain in training and then certificates are in order. A veteran who starts [Gf] [uncertain] training after the 20th of a month will have [Jo] [uncertain] wait [peveral deys] [uncertain] longer for his [Initial] [uncertain] payment, ve pointed out. The [tcason] [uncertain] is that VA cant process his [Jcertification] [uncertain] until [afler] [uncertain] he has completed hie first full month of training.

Crockett Courier — September 11, 1952

Payments for both [periods—the] [uncertain] com-

plate month and the few days of the preceding [month—will] [uncertain] be included In his first check.

The allowances for veterans train:

ing full-time in schools and colleges jj under the new Korean Gi Bill are \$130 fur those without dependents; 135 [sifur] [uncertain] those with one dependent, and [81G0] [uncertain] for those with more than one dependent. [Allywances] [uncertain] for part-time training, on-the-job training and [insistitutional] [uncertain] on-farm training are somewhat lower. The GI allowances are [pald] [uncertain] directly pj to veterans, and are the only pay mental made under the new Korean Gi Mill, They ate for the purpose of [1] asniating] [uncertain] veterans in meeting the costs poof their training.
