[yHAT] [uncertain] MAKES THE SEAT OF HIS PANTS SHINE?

Austin, Sept. 17.

editor Courier:

Lt. Gov. Ren Ramacy of San Avrustine today made the following [tatement:]

Crockett Courier — September 11, 1952

[uncertain]

A little waste here and a little [inefficiency] [uncertain] there are adding up to [vig] [uncertain] bill for Texas taxpayers.

Ever so often, successful basle's must take stock of [ita] [uncertain] methods [und ita] [uncertain] operations to [sce] [uncertain] if departments are becoming [carcleas] [uncertain] and if the moat economical [nysterns] [uncertain] are being seed.

The Texas state government is a big business. It is getting bigger all the time. Annual costs of state [gow ernment] [uncertain] are now about \$600,000 660.00 [(tripled) [uncertain] since World War If), There are strong pressured demands for another \$100,000,000.00 a year for highways some \$30,000,000.00 more for teachers" pay [(current] [uncertain] costs of public education: [atate] [uncertain] level, \$108,500,000.00; [loca}] [uncertain] level, \$143,000,000.00, total [8311,-500,000.00);] [uncertain] some 8,000,000.00 moo for state colleges more for school buildings, [etc.] [uncertain]

We must cut out the small) wastes, the duplications, the unneeded melons. Every dollar spent [shanld] [uncertain] get value received. When we do that, we are going to find that we have saved a large sum [eof meney] [uncertain] that can be pot to constructive use. And, in addition to that, we most guard [ageinst] [uncertain] the growing tendency ta raid the

treasury every time we get state fl-[nances] [uncertain] in [falriy] [uncertain] good shape. We sam a huge war time [eurpluy] [uncertain] wrecked Io a very few days.

Recently, t was proposed that the state help with [ita] [uncertain] money on a research project to find out what caused. the shine on men pants. Private

enterprise already has done research about the shine on the seat of [mens] [uncertain] pants the domino players down in

San Augustine reached a conclusion long ago that the [shinc] [uncertain] was [cansed] [uncertain] by sitting down too much. The state government cannot be

[Jaxpected] [uncertain] to fiancé projects [thal] [uncertain] avoid be pureed by private industry. We are doing private [todustry] [uncertain] ne service when We take over one of [S] [uncertain] its functions, Weare doing the public

no service when we do that, because our tax money must come, to a large extent, from business and industry. Elimination of function of private enterprise cuts off ta tax contridv- then and in turn would put sn eddi- tonal burden on the citizen. The next legislature has a [tre] [uncertain] j Mendous [responalbdjlity.] [uncertain] I hope that cg) every member of the [legistutture] [uncertain] will regard his office [aso] [uncertain] trust to [reduco n] [uncertain] waste of the [motey] [uncertain] we already have and to resist treasury raids. Legislators will need the help of [1,] [uncertain] the public to do this, Every citizen [Jahould] [uncertain] think twice before asking for [n,] [uncertain] money from the state. He must real ij [ize] [uncertain] that every time we give in to [agme] [uncertain] group for some pet project, we put [ouraclres] [uncertain] fn the position of hay-

Ing to [entertain] [uncertain] the pleas of other groups. I am proud-of the officials inland employees of our state [goveron- ment.] [uncertain] They are honest and patriotic. [IS}] [uncertain] L know they will work cooperatively [at}] [uncertain] with the legislature and the public tn [nl]] [uncertain] general in [scelng] [uncertain] to it that we [havo nti] [uncertain] both economy and [effxiency] [uncertain] In our stale government."
