Senator Sparkman says [Texas haa] [uncertain] special case. Where have we heard that Lefore? President Troman said that the case of Texas was [unique], [uncertain] in an interview at Austin during the 194% campaign. At that time there was no suit against Texas, although one was pending against [California.] [uncertain] Many Texans took the bait and voted for Truman. But just six weeks after) Truman was elected, he acquiesced in the attorney [gencrals] [uncertain] filing a suit against Texas. Just how dumb docs Senator Sparkman think Texans are? Once burned, twice shy."

He say that General Eisenhower has taken three stands, General [Eisen-]. [uncertain] power, when originally quizzed, said that he thought the [preaident] [uncertain] should back the supreme court. But since" that time he has [aad] [uncertain] over and over that he will not veto a tidelands bill if parsed. ARE CONFUSING 10 PUBLIC

The war in Korea has many aspects confusing to [tha] [uncertain] public. Possibly the mast [confualng] [uncertain] point is, ae Gen. [Doug: las] [uncertain] MacArthur has so effectively em- [phasized,] [uncertain] why we not are fighting to, win. World [War] [uncertain] U1 was an all-out war, in which we fought

with every). resource at our command, including the atomic bomb. In Korea, however,) we are fighting a war with all kinds/, of restrictions placed on the military in the field by the politicians in [Waah-], ington.] [uncertain] Dont bomb [Cemmiat] [uncertain] air, bases north of the Yalu river. Dont blockade China. And for many months, while Americana were dying in bloody combat, United Nations forces were). not allowed to bomb the big power plants in North Korva.

Regenty, [thia] [uncertain] latter restriction was relaxed. On June [ZA,] [uncertain] the air force announced that GOO United Nations planes had bombed the four big power plants in North Korea, notably the Suiho plant, the" worlds fourth largest [hydrvuctne] [uncertain] plant.

Stories quoting the air [forre] [uncertain] announcement said that the Suiho plant wan knocked completely out of service," that power stations below the dam were [deatroyed"] [uncertain] and that Ube said demolished the [Rulho] [uncertain] hydroelectric [phant." If] [uncertain] the destruction were wrought that these words indicate, the Suihe plant would have been out of action for many months. Yet, when bombers again attacked the plant inst Saturday, the stores spoke of it as being partly repaired" and of the booty falling on installations undergoing repair" from the June raid [vag] [uncertain] other words, the installations apparently had not been destroyed

[Exaggerated claime] [uncertain] are misleading They lead the public to believe that the war is being fought on all-out 1 [pcalé] [uncertain] to win and to bring if tw cen-, [clusion.] [uncertain] They build hope among those" who have relatives and friends fight-: [tng] [uncertain] in Kutee. That seems to be at best one objective of the [statereents] [uncertain] But it makes the disappointment greater for relatives and friends of, fighting men when they earn that" the claims were exaggerated. [They]] [uncertain] are [entatied] [uncertain] to know wh) the plants are not [realix] [uncertain] destroyed, since [whe):] [uncertain] are important to the Communist mili-! LIVESTOCK MARKET QUOTES HIGHLY UNEVENPRICES

[lly] [uncertain] Ted Goldy.

Fort [Worth ConaWerably] [uncertain] smaller supplies of livestock arrived at Fort Worth and at the nations 12 major public markets as the mid-September market week opened Monday. Highty uneven prices were in evidence, with the trend steady lo [sirunger] [uncertain] on most castle and calves with some sales on cents higher. Cows sold fully cents, spots

1 higher. Other [elesere] [uncertain] of cattle and calves, including [stockera,] [uncertain] ere getting a bit better action than was evident in the dull close, of a week earlier. Hogs opened the [werk] [uncertain] with a [Tb-cent] [uncertain] advance and [tepped] [uncertain] at \$19.72. Sows were [siredy] [uncertain] at \$15 to \$17.

Sheep and lame were generally steady, the hinds considered. High quality and highly finished kinds were very [acatre,] [uncertain] or absent.

In seeking reasons for the recent drop of prices, the trade believes:

Persistent refusal ef normal de- [mand] [uncertain] for [stochers] [uncertain] and feeders to de- [velop] [uncertain] hae been a tremendous factor in the slumping cattle and calf trade.

Howrrer, packers again pointed te sharp reductions of wholesale [proces] [uncertain] of most kinds of calf meat and te- iterated [Uheir] [uncertain] inability to [werk] [uncertain] out from under the [Inrrntories] [uncertain] even at induced preen Cow [berf,] [uncertain] grasper steers and honed out beef was mowing sluggishly in the meat channels because of large supplies

[Gerd] [uncertain] and [chowe] [uncertain] fed seer and [yrastings] [uncertain] drew 24 to \$30.
